

Round Square

Round Square schools share an approach to learning based around the organization's six IDEALS: Internationalism, Democracy, Environmentalism, Adventure, Leadership and Service.

Membership in Round Square will afford CFIS access to a global network of 180 schools on six continents, opportunities for student exchanges, and a wealth of resources to enrich our school's curriculum. The six Round Square IDEALS fit seamlessly with our school's values, and build upon our school's UNESCO ASPnet status.

Membership in Round Square will strengthen our school's international mindset and provide opportunities for our students to have an authentic international experience as well as to make connections with others on a global scale.

What is Round Square?

Round Square is a global network of innovative schools in 50 countries on six continents. Much like UNESCO schools, Round Square schools focus their curriculum on a set of globally-focused values that drive curriculum and program development.

How will affiliation with Round Square support CFIS students and faculty?

As an established global network, Round Square schools enrich students' lives through student exchanges as well as having international students be part of our grade nine and ten classes. The regional (The Americas) and international conferences provide students and faculty an opportunity to discuss topics related to the Round Square IDEALS in a highly engaging and personal format.

Member schools gain access to resources and an online platform where teachers from around the world can collaborate. Extensive opportunities exist for collaboration between schools, including student and faculty exchanges, curriculum development, faculty development, sharing of best practices, programs for alumni, and service projects.
