Note: The percentage increase to the salary schedule is made on the first range, first cell. The A rate is a 2.5% increase from the PROB rate. Each step B-E is a 5% increase from previous step. For employees eligible to receive longevity pay, the pay rates listed are used in calculating additional pay only. Annual salaries for employees eligible to receive longevity pay are calculated using Step E to determine Base Pay and applying the longevity percentage (5%, 8.5%, 10%, 12%, or 15%) to the Base Pay amount.
