## Curriculum Syllabus

### French I - Grades 9 - 12

## Course Description:

The study of a world language employs the sequential development of the four skills necessary to language learning, i.e. listening, speaking, reading and writing. Level I lays the foundation of these communication skills with a particular emphasis on listening and reading, since research reveals that actual language acquisition happens when tapping into these two skills. The French I course addresses the five crucial areas of communication, cultures, connections, comparisons and communities. Students engage in a variety of strategies and interact with multiple resources to begin language acquisition. These elements are continuously integrated, reviewed, refined and expanded.

Cross-cultural understanding is a major objective and an essential ingredient to basic language competency. These same resources are employed in introducing students to francophone values, products and practices.

## Course Standards:

The following is a list of NJSLs that describe what students are expected to know and be able to do as a result of successfully completing this course. The following NJSLs are the basis of the assessment of student achievement. The learner will demonstrate mastery of:

### *Novice High Proficiency Level*

**Interpretive Mode** - The mode of communication in which students demonstrate understanding of spoken and written communication within the appropriate cultural context. Examples of “one-way” reading or listening include cultural interpretations of print, video, and online texts, movies, radio and television broadcasts, and speeches. Interpretation beyond the Novice level differs from comprehension because it implies the ability to read or listen “between the lines” and “beyond the lines.”

**Interpersonal Mode** - The mode of communication in which students engage in direct oral and/or written communication with others (e.g., conversing face-to-face, participating in online discussions or videoconferences, instant messaging and text messaging, exchanging personal letters or e-mail messages).

**Presentational Mode** -

The mode of communication in which students present, through oral and/or written communications, information, concepts and ideas to an audience of listeners or readers with whom there is no immediate interaction. Examples of this “one-to-many” mode of communication are making a presentation to a group, posting an online video or webpage, creating and posting a podcast or videocast, and writing an article for a newspapers.
