## Important Message about Suspicious Activity

Good morning DCS Family,

We have an important message we want to make all families aware of. Davie County Schools and the Sheriff's Office have both received calls this morning about individuals coming door-to-door trying to sell books and materials on behalf of Davie County Schools. These individuals are NOT affiliated with Davie County Schools. We have also learned that similar activity has taken place in neighboring counties.

The Davie County Sheriff's Office recommends using caution when strangers approach your door, especially for children home alone. It is best to not answer the door if the resident does not recognize the visitor.

We appreciate those who have contacted law enforcement about this suspicious activity, and encourage our community to continue to be alert, and help keep one another safe. Please continue to report any unusual activity in your respective neighborhoods to the Davie County Sheriff's Office. Thank you!
