

Lakes Region League Athletic
COVID-19 Protocols
Fall 2021

As a league we are united in our commitment to safety, for our schools and the communities we belong to. In a continuing effort to provide in-person learning and a full interscholastic sports program, we have agreed to following shared operating guidelines:

- All athletes involved in interscholastic competition must be vaccinated
- Lakes Region League athletes may not participate in club sports, AAU basketball, split season hockey, college showcase events, or similar off campus programs unless they have received the vaccination
- Coaches, athletic trainers, and personnel involved in the athletic program must be vaccinated
- When playing non-league opponents, we will require all participants to be vaccinated
- All spectators should be vaccinated

This policy will be updated to align with the changing nature of the COVID-19 pandemic and agreement amongst member schools.
