

Mt. Greylock Regional School District

working on a questionnaire for daily entry – symptom check at dropoff. Also tracking PPE deliveries.

Technology: Eileen: Met today. Focusing on devices, platforms, and professional development. Survey questions about what devices teachers are using, what might need to be purchased. New technology demo week of July 6. Working toward Canvas as a consistent platform at MS/HS. Some elementary school teachers are interested but also have Google Classroom and Class Dojo. Models – small group instruction at elementary school level. Curriculum PD tied to instruction. Tiered approach at department level at MG. These are beginning conversations because we don't know what things will look like yet – planning for all remote and will then work with whatever comes.

Joelle: Likely a lot of overlap between working groups. Instructional group was discussing benchmarking and programming and interventions – links with wellness, technology. Need to make sure we connect or have cross-representation among groups. Kim: Jose Constantine and Nicole Porter assigned to help make the connections.

MGEA: Marty and Kim meeting on Thursday to discuss; may need to reschedule if guidance is not out yet.

Kim and Steve to discuss more about how to best convey information to school committee and community. For now suggest that roadmap subgroups present to full SC and community at the same time.

Kim: Will keep posted on surveys – want to get out as soon as we can finalize.

Steve: Tentative meeting next Wednesday or Thursday at 3pm. Kim will reach out to health professionals to attend.

Business not anticipated	None			
Adjourn	MOTION to adjourn at 3:39 PM	Carter	Miller	2-0-0

Respectfully Submitted,
 Alison Carter
 Education Sub-Committee Secretary
