

BOOK STUDY

Hacking School Culture Designing Compassionate Classrooms

September 27th through December 6th, 2021

If you could teach all kids empathy, tolerance, and compassion, wouldn't teaching all things be easier? Bullying prevention and character-building programs are deepening our awareness of how today's kids struggle and how we might help, but many agree: They aren't enough to create school cultures where students and staff flourish. This book is packed with protocols that inspire strengths-focused teaching and learning, tools for starting hard conversations, coaching critical questioning, and sustaining respectful communication.

This six-week book study is 100% online with no face-to-face sessions. Materials will be delivered to participants at their school/setting the week before the course is scheduled to start.

20 Inservice Credits will be awarded upon successful completion of all required components with an average of 80% or higher
