August 30, 2021

Dear Parents/Guardians,

We excitedly opened our doors to students today and welcomed them back to school!

Important information has been assembled for you in the [First Week of School Web Portals](#) for each school at www.parklandsd.org. The portal can be accessed on the home page of the District website by clicking on the SCHOOLS tab at the top and then 1st WEEK OF SCHOOL WEB PORTALS. Items include VIRTUAL OPEN HOUSE INFORMATION FOR PARENTS/GUARDIANS as well as HANDBOOKS, CURRICULUM and INSTRUCTION links, FOOD SERVICE links, the HEALTH AND SAFETY PLAN and lots of other information that will help you and your family prepare for the school year.

In particular, it is important that you review all School Board policies and the Parent/Student Handbook for your student's school which are both linked in the 1st Week of School Web Portal. Your review of the portal is also critical to ensure that all parent/guardian/student contact information is current and that your student and you fully comply with all District policies, procedures, rules, regulations, guidance, requirements and general information.

Unless you notify your child's school in writing, your student will automatically be opted in to field trips, photographs and/or videotaping for publicity purposes, and your contact information will be included in a password protected PTO Directory at your child's K-8 school (there is no PHS Directory). Additionally, it will be assumed that you, the parents, have signed off on the Acceptable Use of Technology Policy and the Parent/Student Handbooks which contain important information. Expanded information on these topics is included below and on the First Week of School Web Portal. Please contact your child's school office with concerns or to request paper copies of materials.

HANDBOOKS - Parents/Guardians must review with their student(s) the Parent/Student Handbook for their school at the beginning of each school year. The Handbook contains information about the Student Code of Conduct, medication, health, food, academics, athletics, arts, transportation, security, Chromebooks issued to students and much more. A review of the Parent/Student Handbook is imperative to assure that your student follows and complies with all policies, procedures, rules, regulations, requirements, guidance and information. Click on the following link to access your school's Handbook under the Manuals section: <https://www.parklandsd.org/about-us/publications>

FIELD TRIPS - At times during school hours, students will participate in day field trips for educational purposes that take place away from your student's school. These may include a visit to another Parkland school or to a site off School District property. All possible care and precaution will be taken to safeguard students including the administration of emergency medical treatment by qualified personnel. Field trips are governed by Board Policy 121. If you do not want your student to participate in a day field trip, you must notify the District in writing no later than one day prior to the scheduled trip. Click on the following link to review Board Policy 121: <http://bit.do/policy121>

VIDEO/AUDIO RECORDING ON BUSES - The District is permitted by law and by School Board Policy 810.2 to video tape and audio tape on school buses or school vehicles. This means that your student's image and voice will be recorded while riding in a school bus or school vehicle. See Board Policy 810.2 for a full explanation by clicking on the following link: <http://bit.do/policy-810-2>

TURN OVER TO CONTINUE READING IMPORTANT INFORMATION.

PHOTOGRAPHS/PUBLICITY/PERSONAL INFORMATION - Student related information known as “Directory Information” is a part of a student’s education record under federal law and School Board Policy. “Directory Information” is an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. Directory Information includes, but is not limited to, the student’s name, address, telephone listing, electronic mail address, photograph, major field of study, grade level, enrollment status, dates of attendance, participation in officially recognized school activities and sports, degrees, honors and awards received, the most recent educational agency or institution attended, and other similar information. Directory Information may be disclosed to others without parent/guardian consent in connection with a student’s participation in academics, the arts, athletics and other school related endeavors. Two examples of disclosure of Directory Information include (1) publication in school district publications or other media/livestream/social media of photographs and videos of students individually or in group settings, including the possibility that the student will be identified by name for publicity purposes and (2) a student’s school providing your student’s name and contact information to the parent teacher organization for your school for listing in its directory. If you do not want the District to disclose this type of information from your child’s education records without your prior written consent, **you must notify your school’s main office in writing by October 15, 2021.** Unless and until notice is given by you, Directory Information will be disclosed in accordance with School Board Policy 216. Your rights regarding your student’s education record are fully explained in the Parent/Student Handbook for the current school year and in School Board Policy 216. Your school’s Parent/Student Handbook may be accessed by clicking on the following link under MANUALS: <https://www.parklandsd.org/about-us/publications>. Policy 216 may be accessed by clicking on the following link: <http://bit.do/policy2162021>

ACCEPTABLE USE TECHNOLOGY POLICY - Your student will be required to abide by the Acceptable Use Policy for technology. District technology resources shall be periodically monitored to ensure compliance with this and other district policies including monitoring of users’ online activities. See School Board Policy 815 for a full explanation by clicking on the following link: <http://bit.do/policy8152021>

RAPID NOTIFICATION SYSTEM - The School District uses a rapid notification system that allows for automated call messages and emails to phone number(s) and email addresses the parent or guardian has provided to the District. To receive text messages, parents must opt-in by texting the word “yes” sent to **67587**. We are asking all parents to [log into HAC](#) and verify existing phone numbers and emails at this time. Then, in September, each guardian who maintains the same physical address as the student will receive an email asking guardians to update further information that will include Parkland's Rapid Notification System. Please contact your student’s school with any updates that need to be made immediately.

Other Items on the First Week of School Web Portal include:

Open House Invitation from Principal
