

QUOTES?

Purchasing has received a lot of questions lately about the “new process” of quotes being required. This is not a “new process,” but has not been consistently adhered to by all.

WHY

Quotes actually speed up the order process. Quotes provide accurate pricing, correct sales tax, shipping & handling, delivery fees, and best of all DISCOUNTS. Quotes will also reference cooperative purchasing agreements, contract pricing, and other pertinent information, including vendor terms.

HOW

Quotes may be obtained by contacting the company representative or visiting most vendor websites. Vendor details, including email addresses, can be found in the Vendor Lookup tab in QSS. Some websites have a quick link feature to request a quote. See next page for examples.
