The GES Directory is an important publication that allows families to stay connected. The directory is the only place you will find class listings and contact information for your child's classmates and friends.

We receive the information from the school district and it is uploaded into the directory. Sometimes there might be a hiccup. If you notice your child is listed under the wrong group you can correct it with these directions:

Go to My Account, Forms/Family Info, Family Information, Bottom of the page click Next Step. This brings you to step 2: Student Information. By your child's name under classroom, use the teacher dropbox and pick the correct placement.

You can also use this to update your information at any time.

If you have any questions, please reach out to us at geshsawebsite@gmail.com
