

# Test Prep and Tutoring Services

We believe in a cohesive, targeted approach tailored to meet student goals. Great score improvements for less time and expense and making students better learners are the cornerstones of what Collegewise Academic Services is all about. **Santa Margarita Catholic High School students receive 10% off any Collegewise test prep or tutoring service.**

## INDIVIDUAL TUTORING

### SAT, ACT, AP Tests

Starting at \$180/hr

Maximize your student's scoring potential. Students who tutor with us have an average increase of their ACT score by 4.45 points on their ACT score and 130 points on their SAT.

- Custom lessons and homework assignments created for each student
- Targeted prep to meet individual testing goals
- Experienced instruction for students with diagnosed learning disabilities including teaching students how to use extended time effectively

### Curriculum, Study Skills

Starting at \$120/hr

We provide targeted tutoring to help students become confident learners in core curriculum subjects, including AP and IB courses.

- Individualized approach to help students build a solid academic foundation
- Custom lessons and homework assignments created for each student
- Experienced instruction for students with diagnosed learning disabilities

## SMALL GROUP TUTORING

### 21-Hour SAT and ACT Courses

\$1695

This comprehensive test prep program is designed to help students establish their benchmark score and maximize scoring increases.

- 21 hours of small online class instruction (max 10 students)
- 5 private tutoring sessions for personalized strategy and attention
- Up to 4 practice tests that simulate the real test

### AP Exams

\$500

These mini-courses are designed to help students excel by providing a structured, comprehensive review of the AP subject material.

- Small group environment (3-8 students per class)
- Weekly 90-minute sessions for 6 weeks
- Teachers will send virtual material in advance to be used during class
- Classes structured by subject
- Available: Spring Only
