Sylvia's Report

Sylvia Fisher Jutila

Fellow Classmates,

Are you ready for August 2021? We're over halfway through the year and I'm finding that intriguing because it felt like we couldn't get out of 2020 fast enough. Ready or not, here we are. Is 2021 unfolding the way you wanted? Is it even close? Is it starting to take shape? The World we live in doesn't always work within our timetable. Are you moving toward the future you want to see? You are where you are for a reason, stop and take a look around.

*"We are born at a given moment, in a given place.
And like vintage years of wine, we have the qualities
of the year and of the season in which we are born"*

--Carl Gustav Jung

As I look back over the years, I'm constantly reminded of how blessed we are to have grown up during the 50s, 60s, 70s, 80s and 90s. We have been there, done that, seen that during some wonderful years. The DHS Class of 1956 is a spectacular, exciting, fun loving, loveable group --- thanks for being so wonderful.

NOW---we have a BIG decision to make, a lot of our Classmates want to hold a luncheon for our 65th Anniversary. We were originally looking at holding our 2021 Class Luncheon in the commons area at Dear Old Davis High School the second Saturday of September. Because of this unstable world we live in, the Davis School District will not confirm or deny our request until the 2022 school calendar is published, late August.

If we want to lock in a date and place for our 2021 luncheon in the near future, we must hold our luncheon at another location. Larry put out the "Luncheon Survey" below on July 29th, if you have already responded to it, do not respond again. Those that have not responded please do so now, we need your input. Lets do it!!!

I have some positive stories from Classmates that I want to share with you. But, first I have to share some negative news with you, it is with regrets and sorrow that I have to announce the death of two of our beloved Classmates -----

Sherrol Major and Carla Chapman Kimball.

Sherrol Major

Sherrol Major-----My beloved grandma, mother, sister, aunt, grandmother, great-grandmother, passed peacefully on June 7, 2021 surrounded by her loved ones. She was a selfless woman who would give everything she had so that no one she loved went without. She loved with her whole heart, she was passionate and caring, very witty too. She was a model in her younger years, at the age of 40. She earned her degree in accounting and started her career at Hill AFB retiring at the age of 65. She was such an inspiration and overcame so much and

stood strong on her own two feet. She loved flowers and was passionate about cats – we would call her the cat whisperer. She loved her family and made sure we all knew just how much. Sherrol had one daughter, Julie and husband Joe; 3 grandchildren; and her brother, Brent and his wife, Linda; sister-in-law, Pam Major.

Fly high my sweet grandma, this is not goodbye, this is I'll see you later.

Time to Go---

Pardon me doctor but may I die, I know your oath requires you to try to keep me alive so long as my body is warm and there is breath of life in me. But listen, Doc, I've buried my wife, my children are grown and on their own. My friends are all gone and I want to go too.

Proposed 2021 Classmate Luncheon - If you haven't already, please respond to the "2021 Luncheon Survey" on page 2. THANKS

Boy, was June and July a busy, dizzy time around our house in Colorado Springs. Normally, between 6:30 and 7:00AM every morning, our twelve year old Golden Retriever (Dani) would come upstairs from his bedroom and let me know that it was potty and breakfast time. On the morning of June 4th, no Dani looking for me, this was not right. I went downstairs and found him laying on his bed, not able to move, with his big beautiful eyes looking at me. He talked to me with his eyes but could not move anything else. This was not the Dani that I spent many hours a day with. I tried to bribe him with words like treat, dog park, ride in the car --- normally when he heard these words his ears would pop up, but no ear movement this time. I got one of my neighbors to help me move Dani onto a blanket, carry him up the stairs and put him in the back of my car. Off to the emergency pet hospital we went. On the way there I had to change lanes, I looked into my mirrors to make sure a lane change was okay. What a surprise when I looked into my rear view mirror and there was Dani standing up in the back of the car, looking at me. When we arrived at pet hospital they brought out a stretcher and took him inside. After a couple of hours working on him, they told me that they had to put him on life support. I told them to unplug him, within seconds he was gone. They said that he had some type of mass growth in his abdomen that burst or ruptured. I still find myself calling or looking for him, he was definitely an active member of our family.

Our 12 year old grandson from Virginia arrived to spend the summer with us, boy was he lost without his buddy Dani to play with every day. We really enjoyed his visit.

During July, we buried my last Aunt, my father's younger sister. That leaves us with only one Uncle left, my father's younger brother. We hope and pray that he sticks around for awhile, when we lose him, my parent's generation is gone. We miss them all and think and talk about the good times we enjoyed with them.

Between COVID and family health problems we've had to cancel many planned trips to Utah. Our next planned Utah trip is in September for our proposed Classmate Luncheon, visit relatives and friends in Davis County, visit relatives and friends in Salt Lake City area, then head south to Millard County to visit relatives and friends (from Colorado to Utah we use I-80, from Utah back to Colorado we use I-70 closing the loop). Stay safe and healthy. Hope to see you all soon, keep the home fires burning. Hugs & Love, **Colorado Ed**

(Sylvia's Report Cont. From Page 3)

No mortal man should keep me here when the call from Him is unmistakably clear. I deserve the right to slip quietly away. My work is done and I am tired. Your motives are noble, but now I pray. You can read in my eyes what my lips can't say. Listen to my heart, you'll hear it cry, Pardon me Doc, but May I die.

No memorial events are currently scheduled.

Carla Chapman Kimball

Carla Chapman Kimball was a caring wife, mother, grandma, great grandma, sister and friend. She left this world August 2, 2021, at the age of 82 holding the hand of her beloved sweetheart Mel, of 65 years and surrounded by her children. Now some positive news from Colorado Springs. We also have our gifted artist Classmate, **Garry Glissmeyer and his wife Janet** residing here. Garry and Janet live very active lives, they both teach art classes at our Pikes Peak Community College. Like our cars, we need tune ups now and then. Garry's Cardiologist recommended that they do some tune up work on his heart. Last Friday Garry went in for "Open Heart Surgery" - the surgery went well, he is now good for another 100 thousand miles. His recovery is going well, Janet told me today that he will go home Friday or Saturday. When a patient goes in for open heart surgery, they are given a "Heart Pillow" to assist them in their recovery. The hospital granted me the privelege to present him with his heart pillow. I also put together a card from all of his DHS Class of 1956 Classmates. The card is shown to the right. I had it enlarged to 11 x 14 on poster board. Garry and Family loved the card and expressed their thanks and love to us all. The two paintings on the card are two of Garry's Masterpieces. Because this is major surgery, Garry's recovery at home will take a few weeks. I will keep you posted, hope to go visit him in a week or two. Bless Garry and his family with good health and strength during his recovery phase. Everyone stay safe and healthy.

Rainbow Bright Garry

The Davis High Class of 1956 sends lots of hugs and love for a fun, speedy, rewarding recovery. You will be in our thoughts and prayers.

Classmate/AlumnAssociation Info

Study on Diastolic Blood Pressure - Intensive lowering of diastolic blood pressure - the bottom reading in blood pressure measurements - does not appear to be linked to an increased risk of heart attacks and other adverse cardiovascular outcomes, according to a large new study. The findings could change how physicians interpret this reading and how some patients with hypertension are treated in the future. The NHLBI's landmark SPRINT study indicated that intensive blood pressure management - lowering systolic blood pressure to less than 120 millimeters of mercury (mm-Hg) - can significantly reduce risk of heart disease, stroke, and death compared to blood pressure targets of less than 140 mm Hg. To determine whether very low diastolic pressure triggered cardiovascular events, researchers analyzed genetic and health data in over 47,000 adult patients enrolled in five study groups worldwide. The patients had a median age of 60 years and 77% were women. The researchers found no evidence of an increased risk of heart attack when a patient's diastolic pressure fell as low as 50 mm Hg. They also found no lower limit of what is considered normal diastolic pressure. As many doctors focus on keeping the bottom reading within the 70 - 90 mm Hg range, researchers suggest that some patients with high blood pressure may have been undertreated in the past.
