August, 2021

Dear Fourth Grader,

Welcome to 4G! We are going to have a great year! There are a lot of new and exciting things happening this year in 4G. We will read many fun and interesting stories in our Language Arts Program. We will study ecosystems in our Science Program. This year we will learn about the people and events that shaped the history of our great state, Pennsylvania. We will also explore many ways to solve math problems of all kinds, including multi-digit multiplication and long division in math. Don't worry if you don't have your school supply list. I will go over the materials you will need for the year on our first day. Enjoy the rest of your summer.

I am looking forward to seeing you in September.

Mr. Gebhart
