

I HAVE BEEN IN CLOSE CONTACT** WITH SOMEONE WITH COVID-19, BUT I DO NOT HAVE SYMPTOMS

UNVACCINATED

- Go home immediately and begin quarantine.
- Notify division head and division nurse.
- Monitor signs/symptoms* and notify appropriate Pace representatives if symptoms of COVID-19 develop.
- Obtain COVID-19 test **5 DAYS** after last date of contact.

UNVACCINATED COMMUNITY CONTACT

- *Negative COVID-19:* Return to Pace **7 DAYS** after last date of contact.
- *Positive COVID-19:* Begin isolation and return to Pace **10 DAYS** after positive PCR test.

VACCINATED COMMUNITY CONTACT

- Monitor symptoms.
- If symptoms develop, test by PCR 3–5 days post-exposure. Remain at home while waiting for test results.

NOTE: A COVID-19 test is recommended on or after Day 5 post-exposure, but a negative result will not shorten length of quarantine.

VACCINATED HOUSEHOLD CONTACT

- Test by PCR.
- Remain at home while waiting for test results.
- Notify Covid Response Team.

UNVACCINATED HOUSEHOLD CONTACT

- *Negative COVID-19:* Return to Pace **10 DAYS** after last date of contact.
- *Positive COVID-19:* Begin isolation and return to Pace **10 DAYS** after positive PCR test.

I AM EXPERIENCING SIGNS/SYMPTOMS* OF COVID-19

- Go home immediately and begin isolation.
- Notify division head and division nurse.
- Contact your doctor to discuss signs/symptoms and determine need for testing.

DOES YOUR DOCTOR SUSPECT COVID-19?

NO

- Update division nurse
- Return to Pace when symptom and fever free (temperature less than 100.4F) with no fever-reducing medications for **48 HOURS** prior to return.

YES

- Remain in isolation.
- Update division nurse.
- Return to Pace **10 DAYS** after date of positive test AND when symptom free with no fever-reducing medications for **48 HOURS** prior to return.

I HAVE TESTED POSITIVE FOR COVID-19

- Go home immediately and begin isolation.
- Notify division head and division nurse to begin contact-tracing process.
- Return to Pace **10 DAYS** after date of positive test AND when symptom free with no fever-reducing medications for **48 HOURS** prior to return.

* **SIGNS/SYMPTOMS INCLUDE:** Fever (temperature of 100.4F or higher), loss of taste/smell, cough, muscle ache, sore throat, shortness of breath, chills, new stomach illness (nausea, vomiting, diarrhea, decreased intake), new/unusual headache

** **CLOSE CONTACT:** Being unmasked within 6 feet of an infected person for more than 15 minutes starting 2 days before symptoms (if contact has symptoms) or 2 days before COVID-19 test date (if contact does not have symptoms)
