

Lintons is pleased to introduce My School Menus by Health-e Pro, an interactive menu and a mobile app that allows easy access to complete nutrition information for the school meal—anytime, anywhere.

Getting Started

1. Point your current link to the new My School Menus.
Boys' Latin of Philadelphia
<https://www.myschoolmenus.com/instance/1057/district/1071>
2. Using the link listed above, place this URL in all of your Menu links on the schools' websites. Those links might include: "Food Services", "Child Nutrition", "Lunch Menu", etc. A link on the front page would be ideal for parents, students, and teachers to find us easily.
3. Create a link on your school website to Lintons SMART Cafe website. The site provides supplemental nutrition and resources for students, parents, and educators. This link is also listed on the My School Menus.
