DISTRICT: Public Plan - Federal Relief Spending

In response to COVID-19, the US Congress passed several pieces of legislation that sent billions in relief funding to states. Tennessee received \$4.2 billion for K-12 funding to be spent before 2024. This is the district's plan for spending, in compliance with federal law.

Introduction

The federal relief funding is a significant opportunity for school districts in the state to **accelerate student achievement**. Outcomes achieved over these four years can set a policy and investment foundation for years to come. Tennessee is fortunate that public education did not face state budgetary cuts during the pandemic, instead experiencing a significant amount of additional state investment during the same time period. As such, we have a collective responsibility to invest strategically, monitor implementation, and report on quantifiable outcomes transparently.

The department believes that in order to demonstrate strong growth at the state and local levels, it remains important to **invest in a small number of high-impact items**, within a cohesive and aligned strategy. These investments should be rooted in research and best practice as the most critical for long-term student success.

The department's strategic plan, **Best For All**, outlines the critical and researched areas that must continue to be strengthened if all students are to continue to grow and thrive.¹ The department strongly encourages all LEAs to capitalize on this moment to create generational impact, lasting legacy, and a roadmap for investments that can and should be made in the future.

¹ LEAs have the responsibility to allocate funds within the policies and rules set forth by the U.S. Department of Education.

ACADEMICS

All Tennessee students will have access to a high-quality education by learning to read and reading to learn with high-quality materials. This includes investments in Reading 360 (literacy) and TN ALL Corps (tutoring).

Description of strategic allocations to accelerate **Academic Achievement**, including how allocations support the investments identified in the district's needs assessment:

High Dosage, Low Ratio Tutoring

Definition: Maximum ratios of 1:3 in elementary and 1:4 in high school, with at least 3 sessions per week

•		•	,	•	•

STUDENT READINESS

Tennessee schools will be equipped to serve the academic and nonacademic needs of all students by developing robust career pathway opportunities and connecting students to real-time support. This includes investments in articulated pathways for all students, innovative high schools linked to career opportunities and advanced coursework, and specialized supports for students who need them.

Description of strategic allocations to support **Student Readiness** and the **School-Related Supports** necessary to access high-quality instruction, including how allocations support the investments identified in the district's needs assessment:

Contingency Plans: Infrastructure Bill Passes and/or Initiatives with Remaining Funds

If a federal infrastructure bill passes, LEAs could receive an amount similar to that received under ESSER 2.0. Should this pass, districts may need to shift funds previously budgeted for infrastructure in ESSER 1.0, 2.0, and/or 3.0 to this new funding source. Therefore, LEAs should have contingency plans for how they would spend the balance remaining in ESSER funds. This will provide transparency for decision-making and allow for LEAs to make changes quickly, having already communicated intent, and limit concerns related to reversion of funds. This could also be used as contingency funding for projects that are unspent or underspent.

OTHER (continued)

Monitoring, Auditing and Reporting

The LEA should outline how they will actively monitor their allocations; how they will conduct interim audits to ensure an appropriate application of funds; how they will collect and manage data elements required to be reported; and how they will report this information to the community. As a note, the department will be releasing guidance for required elements at the state and federal levels once clarified by the U.S. Department of Education. The department recognizes that this will be a significant requirement and strongly encourages districts to allocate at least 1% of their funding capacity toward monitoring, auditing and reporting. LEAs should outline their plans for this work in the space below.
Family and Community Engagement
The LEA should outline how they plan to meaningfully engage with families and communities throughou the life of the ESSER and other relief funds.
