Dear Haldane Families -

We are aware that the SNAP Health Portal sent an email last night to Haldane families requesting the update of health information for your child(ren).

SNAP is the student management system used in our health office; however, ***please note that there is no need to complete this information.*** This was an automated message sent by the system.

We will update your records using the back-to-school forms that you completed. If you have any questions, please contact Tara Rounds, Director of Pupil Personnel at 845-265-9254, ext. 127.

Thank you.
