

Northbrook District 27

Instructional Delivery Plan for Quarantined Students, 2021-22

Updated 9/1/2021

Grades K-2

Any materials students should complete will be provided online through Canvas and/or for pickup in the school office. **Some daily, instructional check-in time will be provided with a designated staff member.**

Grades 3-5

Students will participate via livestreaming (not synchronous instruction*) for whole-class reading, writing, and math lessons. Additional learning experiences (science, social studies, workshops, etc.) will be determined by the teacher based on overall feasibility of the activities. Any materials students should complete will be provided online through Canvas and/or for pickup in the school office.

Dr. Michael Rich

Grades 6-8

Student participation via livestreaming (not synchronous instruction*) will be determined by the teacher each class period based on feasibility of the activities. Any materials students should complete will be provided online through Canvas and/or for pickup in the school office.

*Livestreaming

Livestreaming will be different from the synchronous instruction provided during the 2020-2021 school year. Livestreaming is defined as transmitting feasible classroom instruction via Zoom for students to be able to view only. Therefore, students will be able to do this only for lessons where material is projected to the class on a screen or flat panel. We recognize not every lesson can be livestreamed as our teachers move back to more hands-on and optimal instruction this school year.

Livestreaming will only be used for students who are quarantined **due to COVID safety protocols**. This opportunity is not available to students who are home due to illness (other than COVID-19) or **on a vacation/out of town**. Students who are home due to extenuating circumstances (ex. recovering from surgery) will be considered on a case-by-case basis.
