Positive COVID Notifications

If you receive a notification of a positive COVID-19 case in your student's classroom, this is intended to notify you that your student spent some amount of time in the same room as an individual who has since tested positive. This does not mean that your student was a close contact. If you have a student who is a close contact you would have received a call from administration prior to the letter going home. There is no action required from you or your student if you receive this letter.
