• plexiglass or social distancing in cafeteria  
• self-contained lunches  
• elementary - cohorted recesses (students will have recess with their individual class)  
• assemblies are suspended until case count is less than 5%

### MISD COVID MITIGATION EFFORTS:

- MISD COVID Dashboard is updated each school day at 4pm. An email notification is sent to all parents/guardians when their child is in a shared space with a COVID-positive individual.
- Masks are encouraged and highly recommended. (Masks are available in the office at each school for students who need one.)
- Hand sanitizing stations are available throughout the buildings.
- Traditional water-fountains have been replaced with touchless water-fountains. Students are encouraged to bring a refillable bottle to school. Paper cups are available for students who do not have a refillable bottle.
- Buses are thoroughly cleaned each morning.
- Hand sanitizing stations are in all school buses for use entering and exiting.
- Plexiglass is available upon parent request.
- Cleaning supplies are used as needed throughout the day in classrooms.
- Custodians are deep cleaning buildings nightly and using COVID spray guns to treat areas.

**\*MISD continues to monitor COVID-positive cases and collaborates with our Local Health Authority on necessary campus, extra-curricular, and district closures.**

**\*\*Some campuses may have additional mitigation efforts that are specific to their campus.**
