

2021-2022 Quarantine Decision Tree for TK-12 School Settings

1. Test for COVID immediately:

- (A) If test is **positive**, isolate at home for at least **10 days after the first symptoms** started and at least 24 hours after resolution of fever and other symptoms improve.
- (B) If test is **negative**, **test again on Day 5** of quarantine. Monitor for symptoms and follow recommended interventions (distancing, face coverings, handwashing) for a full 14 days.

2. Test immediately and on Day 5 of 10-day quarantine

- (A) If test is **positive**, isolate at home for at least **10 days from date positive test was collected** and at least 24 hours after resolution of fever and other symptoms improve.
- (B) If test is **negative**, **test again on or after Day 5** of quarantine. Monitor for symptoms and follow recommended interventions (distancing, face coverings, handwashing) for a full 14 days; if symptoms develop, isolate and test for COVID immediately.

- 3. If test taken **on or after Day 5** from last exposure is **negative**, student may **resume extracurricular activities on Day 8**.
