which satisfies requirements for the safe reopening of schools per CDPH [Guidance on Schools](#). For those seeking to open while in the Purple Tier, these plans have also been submitted to the local health officer (LHO) and the State School Safety Team.

I confirm that reopening plan(s) address the following, consistent with guidance from the California Department of Public Health and the local health department:

☒ **Stable group structures (where applicable):** How students and staff will be kept in stable groups with fixed membership that stay together for all activities (e.g., instruction, lunch, recess) and minimize/avoid contact with other groups or individuals who are not part of the stable group.

Please provide specific information regarding:

How many students and staff will be in each planned stable, group structure? (If planning more than one type of group, what is the minimum and maximum number of students and staff in the groups?)

Primary grades 0-13 students; upper grades 0-17 students; intermediate schools will have stable groups A & B with 25% max ea day.

If you have departmentalized classes, how will you organize staff and students in stable groups?

There will be a stable group "A" and stable group "B" for all grades. Primary grade students will remain with their home room teacher.

If you have electives, how will you prevent or minimize in-person contact for members of different stable groups?

Our physical distancing protocols will include extended passing periods, use of outdoor areas with physical distancing. Dismissal will occur before lunch period.
