

Dear Parent/Guardian:

This is my eleventh year teaching at Rogersville City School and I am excited to begin this chapter in my life as your child begins a new chapter in his/hers. Let me introduce myself to you. I graduated from Carson-Newman College in December 2005 with a Bachelor's Degree in English with a minor in Secondary (7-12) Education. This is my 16th year teaching at the middle school level. My wife and I have been married for 18 years and have two children Brylea and Zander.

Teaching wasn't always what I wanted to do; but after looking back in my own experiences in school and remembering the impact my teachers had on me, I realized what I was supposed to do. I wish to impact lives through teaching. I look forward to being an impact on your child's life, education, and preparation for high school. I am available to you if you have any questions or comments. Feel free to call the school during my planning time or email me with your questions. **Please review the attached Course Syllabus with your child to better understand what is expected this year.**

Thanks for your time.

Computer Use

Computer time is at the teacher’s discretion. Any computer use that is inappropriate could result in a detention.

Academic Integrity

All students are expected to not only have good work ethic, but also to work with honesty and integrity. Students who engage in dishonest behavior as in cheating or plagiarizing will receive a grade of zero on the assignment. No exceptions.

What is cheating?

1. Receiving or providing information during a test or for a test given in an earlier period.
2. Using material on tests when the teacher has not given permission to do so.
3. Violating the teacher’s testing rules and procedures.
4. Using somebody else’s writing (word for word—or almost word for word) and saying it is your own. (Plagiarism). Or using somebody else’s ideas and saying they are your own and not giving credit.
5. Using or copying another student’s assignment to turn in as your own work.
6. Allowing other students to use your work on assignments-- with the exception of specific group, lab, or collaborative projects.

There are other actions that may be considered cheating or dishonesty. The above list contains the most common ones

****Final Note****

I reserve the right as the teacher to modify the syllabus at any time. Students and parents will be notified if anything changes.
