

Make a long, skinny S

*air out of the front/middle of the mouth...not slurpy
& slushy air out of the sides of the mouth

*tongue hiding behind teeth

1. Put your lips in a little smile.
2. Make your cheeks TIGHT.
3. Pop your tongue **UP** for **T**, repeat 3 times.
4. On the 3rd **T** sound, glue your tongue to the top of your mouth, and keep the air blowing.

With lots of practice, the sound will turn
into a correct, skinny /s/!
