

# Student Device Insurance

Student devices will be checked out to students in the first couple weeks of the school year. If you choose to use your own device, we will not be responsible for it and we will be unable to help you with any technical support.

Students, except specific younger grades, will be expected to safely bring their device from home to school fully charged, ready for the school day.

Please keep in mind that damage to or loss of the device will be charged to you if you do not sign up for the insurance offered by [schooldevicecoverage.com](https://schooldevicecoverage.com)

Cost of the insurance is only \$37 and the cost of device starts at \$400.
