

Masonboro Elementary School
Procedures For Make-Up Work
Due To Quarantine
2021-2022

First 24-48 Hours

Within the first 24-48 hours your child's teacher will be in contact with you via email, phone, or Talking Points to check in and discuss your student's instructional plan during his/her absence.

Procedures For 1-4 Day Quarantine From School

During the first four days a packet of work will be provided to you that is aligned to the grade level standards and supports classroom instruction. Families will be notified when the work is ready for pick-up at the front office.

Parents and Guardians are asked to pick up work from the front office. If the family would prefer that work be e-mailed to them, please notify the teacher as soon as possible.

This work packet should be returned to school when your child returns to school.

**If a family needs assistance with picking up work, please call the school at 910-790-2355 and ask for Mrs. Campbell, our school social worker.*

Procedures For 5-10 Day Quarantine From School

If your child has been asked to quarantine for greater than 4 days, work will be provided in multi-day increments by your child's teacher. Work can include paper and pencil assignments, digital resource lessons, as well as Google Classroom or SeeSaw assignments.

**If a device or hot spot is needed to complete remote work please let your teacher know.*
