

# Friends of the Arts Membership & Benefits

---

Friends of the Arts are families, alumni, faculty and businesses who support fine arts students and faculty at Charlotte Christian School through annual financial contributions. The generous support from Friends of the Arts enriches our student fine arts experience by bringing guest artists and performers to campus, sending our students into the community to experience the arts first hand in professional studios and performance halls and elevating the educational fine arts experience to include elements of a professional arts experience. Additionally, Friends of the Arts afford our fine arts faculty opportunities to grow by funding professional development endeavors specific to the arts.

Past projects and initiatives made possible by Friends of the Arts include lighting and special effects for mainstage productions in the Center for Worship and Performing Arts, hosting guest musicians from Wheaton Symphony Orchestra, building an instrument inventory to support our growing band and orchestra programs, the commission of an original composition for our band students, bringing guest artists into our fine arts classrooms, procuring a set of iPads complete with arts specific apps for use in fine arts classrooms, updating student furniture in lower school fine arts classrooms, updating jazz band equipment and instruments and placing high quality scanners in our visual art classrooms.

We invite you, your family or your business to join our growing community of supporters by becoming a Friend of the Arts at Charlotte Christian School. Click [HERE](#) to donate today.
