Hey there, Bryant!

I am your After School Coordinator, Shay! I am looking forward to meeting all of you and working with all your students. How I have the month of September planned, is laid out above, but each day of the week will be a different sort of camp where the students and I work on enriching activities that are fun and engaging.

Each day of camp will be different from the last, and will change depending on student's interests. Here are what the camps include this month:

- Art Camp: Various different art challenges using different medias and techniques.
- Computer Camp: Learning how to use computer programing and 3D printing software, and enjoying interactive games
- Science Camp: Includes learning about building bridges, osmosis, genetics, chemical reactions, and making ice-cream!
- Creative Writing: Creating characters, stories, plot lines, and working through writing prompts.
- Group Activities: These are where the students will come together and work on challenges with one another, and also will be able to enjoy our last few weeks of warm weather!

Like I said above, these activities will grow with the students throughout the year, and I am super excited to get to know everyone.

Other than the daily camps, every day will start with a snack, followed by homework help, and end with dinner at 5:30 – 6:00pm

The program start date is Monday, September 13th. You may have noticed that there is no program running on Thursday – Friday September 16th – 17th, and Monday, September 20th. Please plan accordingly for there will be no one here running the after school program. To register, follow the link below and either apply with the fee waiver, or pay the one time registration fee.

That's all for now! Do not hesitate to reach out to me via e-mail with any questions or concerns. I am looking forward to meeting all of you and your students. Thank you for all that you do.
