FALL 2021

CLASSES, PROGRAMS AND
EVENTS FOR ALL AGES

WELCOME TO THE 2021/2022 SCHOOL YEAR

The world has changed, and we've been through a lot these last two years. Consistency and structure never fell on the same day and it was difficult to rely on your usual help and assistance. But Edina Community Ed was there all along and still is here. Still a place to belong. Still a place to learn and connect and still committed to the health and vitality of our community with Edina Public Schools at its center. Like you, we did have to reinvent ourselves.

The beginning of a new era is in sight. Like our world, and like our community, our program is in a constant state of blossoming and renewal, responding to evolving community needs. As always, it's designed to foster growth and deepen bonds between people in our community.

**SCAN HERE TO GO TO
OUR WEBSITE!**

We invite you to explore what we have to offer this fall. But maybe even more important, we invite you to partner with us to create new, fresh, and vibrant programming to meet community needs. Join with us in a sustained commitment not to restore the world we once knew, but instead imagine what we want to be different. Help us design programs to usher in a new age of connection, equality, renewed sense of togetherness, and interdependence.

MAKER SERIES

The Maker Series is the definition of ‘Community.’ It is about community members coming together to learn from someone in their own community. These classes are not only about the finished project, but also about gathering, connecting, and deepening roots. We hope that this series inspires participants to create something new, connect with someone new, and to create and connect again and again.

Charles Morrill:

"Woodshop is a place to meet people with like interests and to pass on some of the skills I've come up with over the last 20 years in the woodshop."

John Corbett:

HOW DOES YOGA RELATE TO MUSIC?

Like a musician practicing their instrument, we use the poses and breaths of our body's movement as notes to create a practical 'music' of self-discovery.

With more than 20 years of yoga experience, our new Iyengar yoga teacher, Karine Watne, hopes to work with all yoga students by increasing the awareness of their own body.

"My hope is to offer each student a tool to gain increasing physical and mental well-being by the end of each session," Karine explains.

EARLY LEARNING CENTER

Edina's Early Learning Center partners with parents, families, and community to ensure that each and every child gets off to the best possible start in learning and in life. We offer programs that are all about building solid foundations, igniting curiosity, supporting the whole child and family, and connecting with the wider community. The relationships that are formed often become a community of support as families enter Edina Public Schools.

EDUCATOR SPOTLIGHT

The Early Learning Center is a place of professional and caring educators who are passionate about the healthy development of

children and the strengthening of families. Like Brenda Libert, who has been with us for 22 years and worked with over 2,000 families!

"Many parents who came into my classroom anxious and unsure about their own abilities and leave feeling more confident and capable than when they came," Brenda explains. "The relationships that form within our classroom are the building blocks that become the community for years to come," she says. "It brings me great joy to know that I can give them a comfortable space where they don't feel judged but rather listened to, honored, valued, and respected. We all deserve that."

EARLY CHILDHOOD FAMILY EDUCATION

ECFE's goal is to enhance the ability of all parents and caregivers to provide the best possible environment for their child's learning and growth. It is a place where all families have people who will walk beside them on their parenting journey.

SPANISH LANGUAGE AFTERSCHOOL: K-5

Taught by Futura Language Professionals

Each year your child will graduate and move into a new level of Spanish. Our unique Building Block Method of Learning is a dynamic, conversation-based methodology that strives to mimic first language acquisition with speaking introduced first, followed by grammar instruction. Students will start understanding instructions from the teacher from the very first class! After completing multiple years in our level program, students can read and write in Spanish, understand complex grammatical concepts as well as form complex sentence structures. Children who finish this program have a strong advantage entering middle school or high school Spanish classes.

Being part of a community can add meaning and great satisfaction to our lives. In addition to reconnecting with your friends and neighbors, we invite you to reconnect with us through volunteering, community outreach and involvement.

VOLUNTEERING

Volunteers promote and strengthen partnerships between our schools and community. They help personalize instruction with individualized attention for learners, enrich curriculum, and can offer unique, multi-generational learning perspectives.

In turn, our community volunteers gain a sense of personal satisfaction and accomplishment, plus a greater knowledge and understanding of the school system. It's a win-win!

Volunteer opportunities might include:

- Classroom assistance
- Before or after school tutoring support
- Help in school media centers

"You can make a difference in the life of a student just by volunteering one hour a week. Whatever your interests and talents are, there is vital work for you to do in our schools."

– Kayla Maring, Youth Development and Volunteer Program Supervisor
