#### **RACE - ETHNICITY DATA COLLECTION**

Recently, the federal government expanded the categories for student ethnicity and race data. Because of these changes, we need to ask you to identify your child as Hispanic/Latino or not Hispanic/Latino and by one or more racial groups.

Washington state now has 222 racial categories to choose from. If one parent identifies with one race and the other parent with another, you will be able to check both races for your child.

#### Question 1: Is your child of Hispanic or Latino origin? (Please check ALL that apply)

#### Instructions for completing the Certificate of Immunization Status (CIS): Print the from the Immunization Information System (IIS) or fill it in by hand.

#### To print with the immunization information filled in:

Ask if your health care provider's office enters immunizations into the WA Immunization Information System (Washington's statewide registry). If they do, ask them to print the CIS from the IIS and your child's immunization information will fill in automatically. You can also print a CIS at home by signing up and logging into MyIR at https://wa.myir.net. If your provider doesn't use the IIS, email or call the Department of Health to get a copy of your child's CIS: waiisrecords@doh.wa.gov or 1-866-397-0337.

#### To fill out the form by hand:

- 1. Print your child's name and birthdate, and sign your name where indicated on page one.
- 2. Write the date of each vaccine dose received in the date columns (as MM/DD/YY). If your child receives a combination vaccine (one shot that protects against several diseases), use the Reference Guides below to record each vaccine correctly. For example, record Pediarix under Diphtheria, Tetanus, Pertussis as DTaP, Hepatitis B as Hep B, and Polio as IPV.
- 3. If your child had chickenpox (varicella) disease and not the vaccine, a health care provider must verify chickenpox disease to meet school requirements.
  - If your health care provider can verify that your child had chickenpox, ask your provider to check the box in the Documentation of Disease Immunity section and sign the form.
  - If school staff access the IIS and see verification that your child had chickenpox, they will check the box under Varicella in the vaccines section.
- 4. If your child can show positive immunity by blood test (titer), have your health care provider check the boxes for the appropriate disease in the Documentation of Disease Immunity section, and sign and date the form. You must provide lab reports with this CIS.
- 5. Provide proof of medically verified records, following the guidelines below.

#### **Acceptable Medical Records**

All vaccination records must be medically verified. Examples include:

- A Certificate of Immunization Status (CIS) form printed with the vaccination dates from the Washington State Immunization Information System (IIS), MyIR, or another state's IIS.
- A completed hardcopy CIS with a health care provider validation signature.
- A completed hardcopy CIS with attached vaccination records printed from a health care provider's electronic health record with a health care provider signature or stamp. The school administrator, nurse, or designee must verify the dates on the CIS have been accurately transcribed and provide a signature on the form.

#### **Conditional Status**

Children can enter and stay in school or child care in conditional status if they are catching up on required vaccines for school or child care entry. (Vaccine series doses are spread out among minimum intervals, so some children may have to wait a period of time before finishing their vaccinations. This means they may enter school while waiting for their next required vaccine dose). To enter school or child care in conditional status, a child must have all the vaccine doses they are eligible to receive before starting school or child care.

Students in conditional status may remain in school while waiting for the minimum valid date of the next vaccine dose plus another 30 days time to turn in documentation of vaccination. If a student is catching up on multiple vaccines, conditional status continues in a similar manner until all of the required vaccines are complete.

If the 30-day conditional period expires and documentation has not been given to the school or child care, then the student must be excluded from further attendance, per RCW 28A.210.120. Valid documentation includes evidence of immunity to the disease in question, medical records showing vaccination, or a completed certificate of exemption (COE) form.

#### The Purpose of the Home Language Survey

The Home Language Survey is given to **all** students enrolling in Washington schools. The following information should help answer some of the questions you may have about this form.

#### What is the purpose of the Home Language Survey?

The primary purpose of the Home Language Survey is to help identify students who may qualify for support to help them develop the English language skills necessary for success in the classroom and who may qualify for other services. It is important that this information be correctly recorded since it can affect the eligibility of students for services they need to be successful in school. Testing may be necessary to determine whether or not additional language and academic supports are needed. No student will be placed in an English language development program based solely on responses to this form.

#### Why do you ask about the student's first language and language(s) used in the home?

The two questions about the student's language help us to determine:

- if your student may be eligible for assistance with learning English, and
- whether staff at the school should be aware of other languages being used by the student at home.

The language your child first learned may be different from the language your child uses for communication at home now. The responses to both of these questions will assist the school in providing instruction appropriate to the individual student's needs as well as help with communication needs that may arise. Students who first learned a language other than English may qualify for additional supports. Even students who speak English well may still need support in developing the language skills needed to be successful in school.

#### Why do you ask where the student was born?

This information helps the school district and the state determine if the student meets the definition of immigrant for the purposes of federal funding. This applies even when **the student's parents are both US** citizens, but the student was born outside of the United States. This form is not used to identify students who may be undocumented.

#### Why do you ask about my student's previous education?

Information about a student's education will help ensure that the student's education both within and outside of the United States is considered in any recommendations made for participation in programs and district services. The student's educational background is also important information to help determine if the student is making adequate progress toward state standards based on their prior educational background.

Thank you for providing the information needed on the Home Language Survey. Contact your school district if you have further questions about this form or about services available at your child's school.

#### For Parent/Guardians:

#### **Definitions:**

Indian means an individual who is (1) A member of an Indian Tribe or Band, as membership is defined by the Indian Tribe or Band, including any Tribe or Band terminated since 1940, and any Tribe or Band recognized by the State in which the Tribe or Band resides; (2) A descendant of a parent or grandparent who meets the requirements described in paragraph (1) of this definition; (3) Considered by the Secretary of the Interior to be an Indian for any purpose; (4) An Eskimo, Aleut, or other Alaska Native; or (5) A member of an organized Indian group that received a grant under the Indian Education Act of 1988 as it was in effect on October 19, 1994.

**Student Information:** Write the name of the child, date of birth, grade level, name of school and school district. Only name one child per form.

**Tribal Membership:** Write the name of the individual with the tribal membership, if it is not the child listed. Only one name is needed for this section, even though multiple persons may have tribal membership. Select only one identifier: the child, child's parent or grandparent, for whom you can provide membership information.

Write the name and address of the organization that maintains updated and accurate membership data for such Tribe or Band of Indians. The name does not need to be the official name as it appears exactly on the Department of Interior's list of federally recognized Tribes, but the name must be recognizable and be of sufficient detail to permit verification of the eligibility of the Tribe. Check only one box indicated whether it is a Federally Recognized, State Recognized, Terminated Tribe or Organized Indian Group. Write the enrollment number establishing the membership for the child, parent or grandparent, if readily available, or other evidence of membership.

**Attestation Statement:** Provide the printed name of parent/guardian and signature, address, phone number and email of the parent or guardian of the child. The signature of the parent or guardian of the child verifies the accuracy of the information supplied.

Paperwork Burden Statement: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0021.
