Office of the Treasurer

Lakota Central Office 5572 Princeton Road Liberty Township, Ohio 45011-9726

Office: 513 644-1180 Fax: 513 644-1183 www.lakotaonline.com

> Jenni Logan Treasurer

December 16, 2020

To the Citizens and Board of Education of the Lakota Local School District:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Lakota Local School District (District) for the fiscal year ended June 30, 2020. Responsibility for both the accuracy of the presented data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report is prepared in conformance with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources. We believe the enclosed data is fairly presented in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report has been prepared by the Chief Fiscal Officer's Office and includes an opinion from the Ohio Auditor of State.

This report will be made available via the World Wide Web at www.lakotaonline.com. Copies of this report will be available upon request. A District communication, which will include social media, announcing its release will be sent to our community residents as well as our business and governmental partners.

As part of this reporting model, management is responsible for preparing a Management's Discussion and Analysis (MD&A) of the District. This letter should be read in conjunction with the Management Discussion and Analysis that can be found immediately following the Independent Auditor's Report.

The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory, advanced placement, gifted, special education and vocational levels; a broad range of co-curricular and extra-curricular activities; special education programs and community recreation activities.

This space intentionally left blank

ECONOMIC CONDITION AND OUTLOOK

Located in Butler County and situated between Cincinnati to the south and Dayton to the north, the Lakota Local School District serves a population of approximately 100,000 people. Within the District boundaries is the majority of West Chester Township and Liberty Township.

West Chester Township

West Chester Township ("West Chester") makes up approximately 68% of the District's territory and the School District covers 96% of West Chester. West Chester is home to more than 64,000 residents.

West Chester, named seven times to Money Magazine's "Best Places to Live in America," seamlessly blends the attributes of a high-end residential community and a vibrant and large-scale business base. Given its strategic location between Cincinnati and Dayton, and a strong commitment to infrastructure, West Chester has emerged as the central economic hub of the regional commerce corridor linking the two.

Strategic planning and a pro-business environment has attracted investment from more than 3,600 businesses, including Fortune 500 corporate headquarters of AK Steel, the dynamic medical developments of UC Health and others; and the cutting edge advanced manufacturing of companies like GE.

This diverse local economy has helped fuel innovative educational partnerships for workforce development opportunities, such as those provided at the Butler Tech Bioscience Center in West Chester and Lakota Local Schools.

West Chester's use and application of TIF districts and commitment to infrastructure investment have allowed thousands of acres to develop commercially with increased business investment, resulting in a sustainable tax base to fund public services long term.

In 2019, West Chester realized more than \$85 million in new corporate capital investment, the second greatest investment in the last five years in West Chester. Twenty-six of the new corporate stakeholders in 2019 were new to the region, twenty-three new to Ohio.

West Chester's growing economy and tax base, healthy financial position and manageable debt burden warrant the highest available bond rating by Moody's Investment Service. West Chester was first awarded the Aaa bond rating in 2010.

The residents of West Chester benefit from the services of well-trained professionals in the fields of public safety and roadway maintenance. West Chester has its own police and fire departments funded through voter-approved levies.

West Chester is welcoming and diverse with a strong sense of community. The calendar is packed each year with free concerts, special events and family activities to inspire community spirit and bring people together.

Liberty Township

Liberty Township ("Liberty") is located in the center of the Cincinnati-Dayton metroplex of more than 3 million people. Liberty is located 20 miles north of Cincinnati and 25 miles south of Dayton, straddling I-75 and the Butler County Veterans Highway (State Route 129). Liberty's strategic location between two major metropolitan areas allows great access to bigcity amenities such as major colleges and universities, professional sports, two international airports, the performing arts, and other recreation resources, including zoos, museums, theme parks, and shopping. According to the US Census Bureau's 2015 mid-Census statistics the population of Liberty is 38,617 residents, which is a 69% increase from the 2000 US Census (22,819). It's expected the 2020 US Census will put Liberty Township well above 40,000 residents.

Liberty has been described as a semi-rural bedroom community, with only 2.5% of the total land area developed commercially. The \$325 million, mixed-use-development-Liberty Center, opened October 2015. The first phase of the development includes 75,000 square feet of Class A office space, 62,000 square feet of restaurant and dining options, 190,000 square feet of upscale residential, a cinema complex and an AC Marriott hotel. The public financing for infrastructure improvements in support of Liberty Center is divided among the developer, the County, Liberty and a recently established "new community authority."

The Liberty Center development counts accessibility and demographic strength among its many assets, with the 64-acre site conveniently located near the newly constructed I-75 and SR 129 interchange. Liberty Center has been the catalyst for additional growth and development along this stretch of I-75. The Christ Hospital Medical Center Liberty Township opened their 125,000-square-foot comprehensive medical center in January 2018. Additionally, Cincinnati Children's Hospital Medical Center Liberty Campus has expanded twice since its 2008 opening. A \$44 million fourth floor expansion added 28 new pediatric inpatient beds along with a blood bank, outpatient pharmacy, urgent care and more clinical space. In 2016, the \$118 million Proton Therapy & Research Center for Cancer Research opened and began treating patients. The center is a unique partnership between Cincinnati Children's Hospital and University of Cincinnati Health and treats both children and adults. It's the only such center in the world owned by a children's hospital.

The Cincinnati-Dayton 19-county metropolitan area, when counted as one, is home to more than 3 million people, making it the largest in the State and the 18th largest in the nation. The communities of Liberty Township, the City of Mason, West Chester and Deerfield Township are situated at the center of this high growth I-75 corridor and are consistently ranked by the national media as top places to live and raise a family.

THE DISTRICT AND ITS FACILITIES

The District is located in Butler County, and covers an area of 68 square miles. It serves pupils from West Chester and Liberty Townships. Since the consolidation of the Liberty and Union districts into the Liberty-Union School District in 1958, the growth in the District has gone from 1,696 students to its largest enrollment in 2010 of 18,473. The name of the District was changed to Lakota Local School District in 1970.

The District housed students in two high schools, two freshman schools, four junior schools, eight elementary schools and six early childhood schools. A redistricting for the early childhood and elementary schools occurred during the beginning of school year 2018-19. This redistricting was necessary to facilitate the move to all-day kindergarten district-wide and changed the grades housed in the buildings as well. Early childhood schools house kindergarten through grade 2 and elementary buildings house grade 3 through grade 6. Preschool is housed at Van Gorden Elementary and Liberty Early Childhood School. The information presented below is as of June 30, 2020.

Name of Bldg Address	Group or Grade Housed	Date of Original Building	Enrollment

ORGANIZATION OF THE SCHOOL DISTRICT

The Board members represent a cross section of professions in the community. The Board members as of June 30, 2020 were as follows:

Board Member	Term Expires	Years as Member	Profession
Brad Lovell, President	12/31/2021	2.5	Educator
Kelley Casper, Vice-President	12/31/2021	2.5	Community Leader
Lynda O'Connor	12/31/2023	12.5	Community Leader
Todd Parnell	12/31/2021	6.5	Sales Executive
Julie Shaffer	12/31/2023	8.5	Licensed Employee Benefits Rep

Effective June 15, 2017, the Lakota Board of Education unanimously appointed Matthew Miller Superintendent. Mr. Miller previously spent the last 25 years serving Ohio communities as an educator in the roles of superintendent (14), director of student services and instruction (1), principal (5), and teacher (5). He completed his undergraduate coursework and Master's degree at the University of Cincinnati and he was selected for the Harvard Graduate School of Education's Leadership Institute for Superintendents.

The Treasurer of the District is Jenni L. Logan. She became Treasurer on January 3, 2011. Ms. Logan holds a Bachelor's degree from Shawnee State University in Business Administration. Ms. Logan has over 20 years of experience in school finance. Prior to joining Lakota, she was employed by Robert W. Baird & Co, Inc. as a Director in the public funds department. She has also served the Milford Exempted Village School District and Waverly City School District as Treasurer/CFO.

LONG-TERM FINANCIAL PLANNING

We have balanced our budget for eight (8) consecutive years and have been able to build up our cash reserves to help sustain us into the next few unpredictable years. The pandemic has resulted in less revenue and the shifting of expenditures in the short-term.

The District utilizes a five-year forecast model based on revenue and expenditure assumptions. It is a snap-shot planning document which provides data to the District in looking towards the future and planning appropriately.

EMPLOYEE RELATIONS

The District currently has over 1,700 full-time and part-time employees. The licensed/certified staff are represented for collective bargaining purposes by the Lakota Education Association (LEA, an OEA affiliate). The District has a three-year collective bargaining agreement with LEA, which expires June 30, 2021. The District's support staff is represented by the Lakota Support Staff Association (LSSA, an OEA affiliate). The District has a three-year collective bargaining agreement with LSSA, which expires June 30, 2021. The District has contracted its transportation services through Petermann, LLC.

SERVICES PROVIDED

The District provides a wide variety of education and support services, as mandated by the Ohio Revised Code or board directives. Throughout the year, we operate over 160 daily transportation routes. These routes include over 12,500 miles each day with approximately 9,000 students attending one of our 23 Lakota school buildings and another 800 students attending private and parochial schools. Our students receive nutrition services as well. The child nutrition department serves approximately 1.05 million meals each year.

Students who attend Lakota also receive guidance, psychological and limited health services free of charge. The guidance services are designed to help students match their natural skills with vocational and/or academic programs to help them achieve their full potential in life. Psychological services include the testing and identification of students for special education programs.

The District's core business is instruction. Lakota offers regular instructional programs daily to students in grades PS-12. Over 300 students participated in the specific trades through Butler Tech on-site vocational education with over 4,300 participating in satellite programs. Over 2,300 students receive special services, due to physical or mental handicapping conditions. In grades K-12, approximately 6,000 students have been identified as gifted.

Finally, the District offers many extra-curricular and co-curricular programs to its students. If a student's passion lies with music, athletics or drama, opportunities exist to enrich their educational experience. An increasing number of student opportunities exist and are not limited to music, athletics and drama. An ever-expanding number of programs and activities provide our students with a well-rounded educational experience.

RELEVANT FINANCIAL POLICIES

The financial forecast of General Fund operations for the next five years demonstrates that the District's fiscal year 2021 ending cash balance is projected to be \$103,354,865.

The District has stabilized its finances for the five year projected period of fiscal year 2021-2025. The approval of a combination 5.5 mill operating and 2 mill permanent improvement levy approved in 2013 continue to have a positive impact on the financial health of the District. This additional infusion of cash beginning in calendar year 2014 has provided funding to implement much needed operational, technology, safety, and curricular projects.

The District's financial stability has improved. The Board of Education has approved policy, which sets caps on increases to expenditures from year to year. This is tied to the CPI (Consumer Price Index). Additionally, the Board has adopted a financial philosophy through policy that sets a minimum cash balance of 60 days. In addition to policy, the District has implemented procedures, which more closely tie enrollment to staffing decisions.

FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

INTERNAL ACCOUNTING AND BUDGETARY CONTROL

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted within three months.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund object level. All governmental funds of the District have budgets. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the District provides financial reports, which detail year-to-date expenditures and encumbrances versus the original appropriation, plus any additional appropriations made to date. In addition to the financial statements retained in the Treasurer's Office, each program manager can monitor their budgets by running interim financial reports.

As an additional safeguard, a blanket bond covers all employees involved with receiving and depositing funds and a separate, higher bond covers certain individuals in policy-making roles.

The basis of accounting and the various funds utilized by the District are fully described in the notes to the basic financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the basic financial statements.

INDEPENDENT AUDIT

Provisions of State statute require that the District's financial statements be subjected to an annual examination by an independent auditor. The unmodified opinion rendered by the Ohio Auditor of State on the District's basic financial statements, combining statements and individual fund schedules, is included in the financial section of this Comprehensive Annual Financial Report. Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The District adopted and has been in conformance with that system effective with its annual financial report since the 1979 calendar year.

<u>AWARDS</u>

GFOA Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2019. The District has received this award for fourteen years. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

ASBO Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting to school districts that publish Comprehensive Annual Financial Reports, which substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. The award is granted only after an intensive review of the financial report by an expert panel of certified public accountants and practicing school business officials.

The District received the Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2019. This was the eighteenth year the District has received this award.

The District believes that the current report, which will be submitted to ASBO for review, will conform to ASBO's principles and standards.

ACKNOWLEDGEMENT

The preparation of the fiscal year 2020 Comprehensive Annual Financial Report of the Lakota Local School District was made possible by the combined efforts of the District's Treasurer's Office and Plattenburg and Associates, Incorporated. The publication of this Comprehensive Annual Financial Report for the District is a major step in reinforcing the accountability and transparency of the District to the taxpayers of the community.

Respectfully submitted,

Jenni L. Logan

INDEPENDENT AUDITOR'S REPORT

Lakota Local School District Butler County 5572 Princeton Road Liberty Township, Ohio 45011

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Lakota Local School District, Butler County, Ohio (the School District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Lakota Local School District Butler County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Lakota Local School District, Butler County, Ohio, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 19 to the financial statements, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the School District. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, *required budgetary comparison schedule* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Lakota Local School District Butler County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2020, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Keith Faber Auditor of State

Columbus, Ohio

December 16, 2020

The discussion and analysis of Lakota Local School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

Financial Highlights

Key financial highlights for 2020 are as follows:

- Net position of governmental activities decreased \$7,901,512 which represents a 29% decrease from 2019.
- General revenues accounted for \$188,085,014 in revenue or 87% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$27,164,724 or 13% of total revenues of \$215,249,738.
- The District had \$223,151,250 in expenses related to governmental activities; only \$27,164,724 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$188,085,014 were also used to provide for these programs.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

Government-wide Financial Statements

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2020?" The Government-wide Financial Statements answers this question. These statements include all assets and deferred outflows of resources, and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

Lakota Local School District, Ohio Management Discussion and Analysis For The Fiscal Year Ended June 30, 2020

In the Government-wide Financial Statements, the District presents:

Governmental Activities – Most of the District's programs and services are reported here including
instruction, support services, operation of non-instructional services, extracurricular activities and
interest and fiscal charges.

Fund Financial Statements

The analysis of the District's major funds is presented in the Fund Financial Statements (see Table of Contents). Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Fiduciary Funds Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

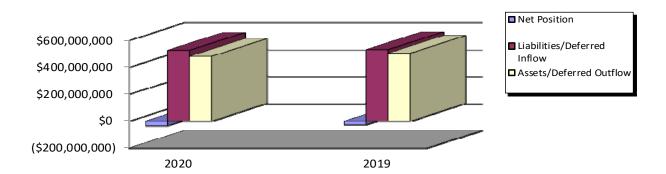

The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for 2020 compared to 2019:

This Space Intentionally Left Blank

Table 1
Net Position

	Government	Governmental Activities	
	2020	2019	
Assets:			
Current and Other Assets	\$253,842,582	\$257,682,281	
Net OPEB Asset	11,390,809	10,736,688	
Capital Assets	174,007,934	176,069,947	
Total Assets	439,241,325	444,488,916	
Deferred Outflows of Resources:			
Deferred Charge on Refunding	3,493,186	4,297,970	
OPEB	5,169,990	2,689,982	
Pension	42,855,217	52,455,561	
Total Deferred Outflows of Resources	51,518,393	59,443,513	
Liabilities:			
Other Liabilities	21,997,466	21,158,655	
Long-Term Liabilities	358,613,663	356,230,857	
Total Liabilities	380,611,129	377,389,512	
Deferred Inflows of Resources:			
Property Taxes	101,048,359	107,503,506	
Grants and Other Taxes	15,107,693	15,178,207	
OPEB	19,966,568	18,904,114	
Pension	9,331,639	12,361,208	
Total Deferred Inflows of Resources	145,454,259	153,947,035	
Net Position:			
Net Investment in Capital Assets	54,291,806	48,400,995	
Restricted	18,089,853	20,433,817	
Unrestricted	(107,687,329)	(96,238,970)	

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2020, the District's liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$35,305,670.

At year-end, capital assets represented 40% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements and equipment. The District's Net Investment in Capital Assets at June 30, 2020, was \$54,291,806. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$18,089,853, represents resources that are subject to external restriction on how they may be used. The external restriction will not affect the availability of fund resources for future use. The remaining balance of unrestricted net position of (\$107,687,329) may be used to meet the District's ongoing obligations to the students and creditors.

Current and Other Assets decreased mainly due to a decrease in taxes receivable. Long-Term Liabilities increased mainly due to an increase in the net pension liability in 2020.

Table 2 shows the changes in net position for fiscal years 2020 and 2019.

Table 2

Changes in Net Position

	Governmental Activities

Interest and Fiscal Charges	5,056,784	4,964,717
Total Expenses	223,151,250	186,851,202
Change in Net Position	(7,901,512)	28,105,851
Beginning - Net Position	(27,404,158)	(55,510,009)
Ending - Net Position	(\$35,305,670)	(\$27,404,158)

The District revenues are mainly from two sources. Property taxes levied for general purposes, debt service purposes and capital project purposes and grants and entitlements comprised 78% of the District's revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus Ohio districts do not receive additional property taxes related to increases in appraised values and must regularly return to the voters to maintain a constant level of service. Property taxes made up 54% of revenue for governmental activities for the District in fiscal year 2020.

		Percent
Revenue Sources	2020	of Total
General Grants	\$53,067,836	24.7%
Program Revenues	27,164,724	12.6%
General Tax Revenues	115,431,864	53.6%
Investment Earnings	3,264,840	1.5%
Other Revenues	16,320,474	7.6%
	\$215,249,738	100%

Instruction comprises 58% of governmental program expenses. Support services expenses were 35% of governmental program expenses. All other expenses including interest expense were 7% of governmental program expenses.

Overall, expenses increased \$36,300,048 million, which is primarily due to changes in assumptions and benefits by the Statewide pension systems which caused the appearance of a large increase in overall expenses. Operating Grants increased due to an increase in grant monies received in fiscal year 2020.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

This Space Intentionally Left Blank

Extracurricular Activities	3,956,955	3,869,379	(2,196,806)	(1,590,886)
Interest and Fiscal Charges	5,056,784	4,964,717	(5,056,784)	(4,964,717)
Total Expenses	\$223,151,250	\$186,851,202	(\$195,986,526)	(\$160,291,697)

The District's Funds

The District has one major governmental fund: the General Fund. Assets of this funds comprised \$220,690,603 (86%) of the total \$255,179,027 governmental funds' assets.

General Fund: Fund balance at June 30, 2020 was \$96,620,923 including unassigned balance of \$82,887,774. Total fund balance increased \$4,075,384 from fiscal year 2019. The primary reason for the increase in fund balance was due to an increase in property tax revenues.

Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

During the course of fiscal year 2020, the District amended its general fund budget. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the budget in an attempt to deal with unexpected changes in state revenues and subsequently reduced expenditures.

For the General Fund, original budget basis revenue was \$178,502,584 compared to final budget basis revenue of \$178,986,873. The difference of \$484,289 was mainly due to underestimates in taxes and intergovernmental revenue.

The District's ending unobligated cash balance for the General Fund was \$108,728,673.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2020, the District had \$174,007,934 (net of accumulated depreciation) invested in land, construction in progress, land improvements, buildings and improvements and equipment. Table 4 shows fiscal year 2020 balances compared to fiscal year 2019:

Table 4
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities	
	2020	2019
Land	\$8,858,505	\$8,858,505
Construction in Progress	747,193	62,496
Buildings and Improvements	154,554,758	157,979,556
Equipment	3,584,173	3,624,396
Land Improvements	6,263,305	5,544,994
Total Net Capital Assets	\$174,007,934	\$176,069,947

The decrease in capital assets is due to current year additions being less than the depreciation expense.

See Note 5 to the Basic Financial Statements for further details on the District's capital assets.

Debt

At June 30, 2020, the District had \$123,573,706 in bonds outstanding, \$9,273,732 due within one year.

Table 5 summarizes bonds outstanding.

See Note 6 to the Basic Financial Statements for further details on the District's long-term obligations.

For the Future

We have balanced our budget for eight (8) consecutive years and have been able to build up our cash reserves to help sustain us into the next few unpredictable years. The pandemic has resulted in less revenue and the shifting of expenditures in the short-term.

Lakota has begun to implement the mission and vision of our new District strategic plan. The action plan to achieve the District's vision are:

1. WE are PERSONALIZED

- I. Clearly articulate and strengthen Lakota personalized learning
- II. Improve structures and systems to align to the vision for personalized learning
- III. Develop a Portrait of a Graduate to clearly identify the skills and competencies necessary for the future success of each student
- IV. Implement multi-tiered systems of support to align services targeted to the needs of the whole child
- V. Ensure success and continued expansion of mental health and wellness initiatives district wide
- VI. Establish professional development and training plans for all tiers of student support

2. WE are FUTURE READY

- I. Design instruction and technology systems to pilot innovative models and programs aligned with the Portrait of a Lakota Graduate
- II. Support personalized learning with the appropriate student technology devices and tools
- III. Continuing to develop instructional strategies to include STEAM2 and project-based learning
- IV. Develop cutting edge pathways in secondary curriculum to prepare each student for future success
- V. Develop real-world learning opportunities to enhance learning and expand student internships
- VI. Create break-through business partnerships that dramatically enhance enrollment, enlistment, employment and entrepreneurship
- VII. Create a comprehensive facilities plan that supports student needs and financial stability
- VIII. Innovate spaces that encourage personalized, project-based and real-world learning

3. WE are FISCALLY RESPONSIBLE

- I. Be good stewards of our residents' tax dollars by operating a strategically aligned and efficient budget, as fiscal responsibility is a top priority for the District
- II. Monitor spending and re-prioritize dollars to enhance personalized student learning
- III. Continue to put the majority of our resources toward instruction, pupil support and instructional support
- IV. In FY 18, this amounted to 68% of Lakota's general fund spending
- V. Continue to provide financial transparency to our community through annual publications like the Comprehensive Annual Financial Report (CAFR) and Financial Prospectus

Lakota Local School District, Ohio Management Discussion and Analysis For The Fiscal Year Ended June 30, 2020

4. WE are IN THIS TOGETHER

- I. Incorporate and encourage student and staff voice into the Lakota learning experience
- II. Continue developing non-traditional programs and opportunities to inspire parents and community members to take an active role in shaping the Lakota experience
- III. Broaden organizational capacity through the continued development of district leadership opportunities and team structure Ø Develop personalized professional growth strategy aligned with district priorities for all staff
- IV. Continue transparency and strengthen two-way communication with all stakeholders
- V. Lead a dynamic culture across the District, embracing diversity and inclusion for all

With these goals in mind, all of the District's financial management abilities and controls will be needed to meet the challenges and achieve continued success into the future. With careful planning and monitoring of the District's finances and continued support from the community, the District's management is confident that the district can continue to provide a high quality education for our students while at the same time providing a secure financial future.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Treasurer at Lakota Local School District, 5572 Princeton Road, Liberty Township, Ohio 45011.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

Description of the District

The District was chartered in 1957 by the Ohio State Legislature. The original District was a consolidation of the Liberty Township District and the Union Township District into the Liberty-Union School District. The name of the District was changed to the Lakota Local School District in 1970. Today, the District operates under current standards prescribed by the Ohio State Board of Education as provided in Division D § 3301.07 and §119.01 of the Ohio Revised Code.

The District operates under a locally elected five-member board form of government and provides educational services as authorized by its charter or further mandated by state and/or federal agencies. This board controls the District's 23 instructional and support facilities staffed by approximately 665 non-certificated personnel and approximately 1,028 certificated teaching and 95 administrative personnel to provide services to over approximately 16,700 students.

Reporting Entity

The financial reporting entity consists of a primary government. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments.

There are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable. The District's major operations include education, pupil transportation, food service, and maintenance of District facilities.

Measurement Focus

Government-wide Financial Statements

The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position. The effect of all interfund activity has been removed from these statements. Fiduciary Funds are not included in entity-wide statements and Agency Funds do not have a measurement focus.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions.

The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust is reported using the economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e. revenues) and decreases (i.e. expenses).

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, deferred outflows of resources, liabilities and deferred inflows of resources is reported as fund balance. The following is the District's major governmental fund:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District maintains two agency funds known as the Student Activities and Athletic Funds. The

Student Activities Fund was established to account for revenues generated by student managed activities, while the Athletic fund was established to account for revenues generated by OHSAA tournament monies. Agency funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only trust fund is a private purpose trust which accounts for scholarship programs for students.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the actual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants and interest.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred outflows of resources related to pensions, OPEB and a deferred charge on refunding are reported on the governmental-wide statements of net position, see Notes 7 and 8.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources

(revenue) until that time. For the District, deferred inflows of resources include property taxes, grants and other taxes (which includes tax incremental financing 'TIF'), investment earnings, OPEB and pension. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance year 2021 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. TIF's have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Student and other fees, grants and other taxes, and investment earnings are recorded as deferred inflows on the governmental fund statements only. Deferred inflows related to pensions and OPEB are reported on the government-wide statement of net position, see Notes 7 and 8.

Expenses/Expenditures

On the accrual basis of accounting, expenditures are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Equity in Pooled Cash and Investments

Cash received by the District is pooled for investment purposes. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits and repurchase agreements are reported at cost.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

There were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice is appreciated for deposits and withdrawals of \$25 million or more. STAR Ohio reserves the right to limit the transaction to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue during fiscal year 2020 credited to the General Fund amounted to \$3,335,451, and \$105 in Other Governmental Funds.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loan receivables/payables". These amounts are eliminated in the governmental activities column on the Statement of Net Position.

As a general rule with the exception of transfers between governmental and proprietary funds, the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities.

Interfund transactions within governmental activities are eliminated in the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

<u>Inventory</u>

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories are accounted for using the purchase method on the fund level statements and using the consumption method on the proprietary funds statement of net position.

Inventory consists of expendable supplies held for consumption.

Capital Assets

General capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values. The District maintains a capitalization threshold of five thousand dollars (\$5,000). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

All reported capital assets are depreciated, except land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Land Improvements	20 years
Buildings and Improvements	45 years
Equipment	5-20 years

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Compensated Absences

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time, when earned, for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. Compensated absences are reported in governmental funds only if they have matured. The noncurrent portion of the liability is not reported.

The District's policies regarding compensated absences are determined by the state laws and/or negotiated agreements. In summary, the policies are as follows:

<u>Vacation</u> How Earned	<u>Certificated</u> Not Eligible	Administrators 20-25 days		
Maximum Accumulation	Not Applicable	40 days, unless special permission granted	25 days	30 days
Vested	Not Applicable	As earned, 30 days maximum at retirement	As earned, 25 days maximum at retirement	As earned, 20 days maximum at retirement
Termination Entitlement	Not Applicable	10 days maximum at separation	25 days maximum at separation	10 days maximum at separation

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets (which includes retainage payable and contracts payable), net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Of the District's \$18,089,853 in restricted net position, none were restricted by enabling legislation.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that can be used only for the specific purposes imposed by a formal action (board resolution) of the District's Board of Education. The Board of Education is the highest level of decision making authority for the District. Those committed resources cannot be used for any other purpose unless the District's Board of Education removes or changes the specified use by taking the same type of action (board resolution) it employed to previously commit those resources.

Assigned – resources intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In the general fund, assigned amounts are intended to be used for specific purposes as approved through the District's formal purchase order procedure by the Superintendent and the Treasurer. The adoption of the board appropriation resolution is the established policy, which gives the authorization to assign resources for a specific purpose.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

During fiscal year 2019 the Board of Education passed a fiscal policy that states:

• Reservation of Fund Balance for Fiscal Stabilization at fiscal year-end not to exceed fifteen percent of total District General Operating Fund average expenditures for the past three years as reported in the five year forecast submitted to the State of Ohio in May of the same fiscal year. The reservation may be established and funded annually, provided that positive growth exists in the fiscal year end District General Operating Fund balance. Each fiscal year, after the close of the financial statements for June 30th, fifty percent of the increase in the District General Operating Fund unencumbered fund balance over the prior fiscal year end closing unencumbered fund balance may be set aside in the fiscal stabilization reserve. This annual setaside may not exceed five percent of the revenue credited to the General Operating Fund the prior fiscal year. Should the General Operating Fund balance decrease year over year, the fiscal

stabilization reserve will not be reduced. This reservation includes 001 – SCC 9217 with a year-end balance of \$4,304,536.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2 - Equity in Pooled Cash and Investments

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the statement of net position and balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current five year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

<u>Interim Monies</u> – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim monies held by the District can be deposited or invested in the following securities:

- United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States.
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.
- 4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met.

- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts.
- No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- 7. The State Treasurer's investment pool (STAR Ohio).
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2020, \$30,881,979 of the District's bank balance of \$31,184,735 was exposed to custodial credit risk because it was uninsured and collateralized.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2020, the District had the following investments:

		Fair Value	Weighted Average
	Value	Hierarchy	Maturity (Years)
Money Market Funds	\$47,557	N/A	0.00
Certificate of Deposit	24,839,936	Level 2	1.72
Federal Home Loan Bank	6,134,189	Level 2	2.68
Federal Home Loan Mortgage Corporation	26,831,289	Level 2	2.50
Federal Farm Credit Bank	9,766,742	Level 2	2.37
Federal National Mortgage Association	11,873,111	Level 2	2.05
Commercial Paper	14,141,787	Level 2	0.60
U.S. Treasury Notes	6,363,575	Level 2	0.98
STAR Ohio	124,401	N/A	0.11
Total Investment	\$100,122,587		
Portfolio Weighted Average Maturity			1.87

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Inputs to the valuation techniques used in fair the measurement for Level 2 include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2020. STAR Ohio is reported at its share price (Net Asset value per share).

Interest Rate Risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years.

Credit Risk — It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. The District's investments in Federal Home Loan Mortgage Corporation, Federal Home Loan Bank, U.S. Treasury Notes, Federal Farm Credit Bank, and Federal National Mortgage Association were rated AAA by Standard & Poor's and Aaa by Moody's Investors Service. Commercial Paper was rated and A-1+ by Standard & Poor's and P-1 by Moody's Investors Service. Investments in STAR Ohio were rated AAAm by Standard & Poor's. Money Market Funds and Certificates of Deposit were not rated.

Concentration of Credit Risk – The District does not have a formal policy related to the concentration of credit risk. The District's investment policy allows investments in Federal Agencies or Instrumentalities. The District has invested less than 1% in Money Market Funds, 10% in Federal Farm Credit Bank, 25% in Certificates of Deposit, 27% in Federal Home Loan Mortgage Corporation, 12% in Federal National Mortgage Association, 14% in Commercial Paper, 6% in Federal Home Loan Bank, 6% in U.S. Treasury Notes, and less than 1% in STAR Ohio.

Custodial Credit Risk – Is the risk that in the event of the failure of the counterparty, the District

will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District.

Note 3 - Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real and public utility property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on real property at 35 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. The District receives property taxes from the County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2021 operations. The amount available for advance can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable at June 30, 2020. Delinquent property taxes collected within 60 days of the fiscal year end are included as receivable and tax revenue on the fund financial statements. All delinquent property taxes outstanding at June 30, 2020 are recognized as a revenue and receivable on the government-wide financial statements. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is available to finance current year operations. The receivable is offset by a credit to deferred inflows of resources for that portion not intended to finance current year operations.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	Amount
Agricultural/Residential	
and Other Real Estate	\$3,016,455,500
Public Utility Personal	115,654,570
Total	\$3,132,110,070

Note 4 – Receivables

Receivables at June 30, 2020, consisted of taxes, accounts (rent and student fees), interest, intergovernmental grants and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current

year guarantee of federal funds.

Note 5 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Beginning			Ending
	Balance	Additions	Deletions	Balance
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$8,858,505	\$0	\$0	\$8,858,505
Construction in Progress	62,496	747,193	62,496	747,193
Capital Assets, being depreciated:				
Buildings and Improvements	244,820,691	1,716,848	0	246,537,539
Equipment	18,731,621	657,959	0	19,389,580
Land Improvements	13,838,487	1,371,589	78,200	15,131,876
Totals at Historical Cost	286,311,800	4,493,589	140,696	290,664,693
Less Accumulated Depreciation:				
Buildings and Improvements	86,841,135	5,141,646	0	91,982,781
Equipment	15,107,225	698,182	0	15,805,407
Land Improvements	8,293,493	653,278	78,200	8,868,571
Total Accumulated Depreciation	110,241,853	6,493,106	78,200	116,656,759
Governmental Activities Capital Assets, Net	\$176,069,947	(\$1,999,517)	\$62,496	\$174,007,934

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$5,697,116
Special	4,707
Support Services:	
Pupil	3,959
Instructional Staff	1,329
School Administration	1,611
Fiscal	14,720
Business	49,074
Operations and Maintenance	175,107
Pupil Transportation	95,202
Central	136,171
Operation of Non-Instructional Services	77,373
Extracurricular Activities	236,737
Total Depreciation Expense	\$6,493,106

Note 6 - Long-Term Liabilities

(a) OPEB for STRS has a Net OPEB asset in the amount of \$11,390,809 as of June 30, 2020.

Debt Refunding

On December 19, 2019 the District issued \$19,046,948 in bonds with an interest rate between 1.941% and 2.515% which was used to partially refund \$19,075,000 of the outstanding 2013 bonds with an interest rate between 4.00% and 5.00%. The net proceeds of \$19,046,948 (after payment of underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide all future debt service payments on the bond issues. As a result, \$19,075,000 of the 2013 bonds are considered to be defeased and the related liability for those bonds have been removed from the Statement of Net Position.

The District refunded 2013 bonds to reduce its total debt service payments by \$1,949,604 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$819,771.

All long-term bonds will be paid from the debt service and permanent improvement funds. Compensated absences will be paid from the general and special revenue funds. All debt will be used to acquire or construct a capital asset for the District. Premiums and deferred amount on the issuance of bonds are included in the debt and will be amortized over the life of the new debt. There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the fund benefitting from their service, the majority of which comes from the general fund.

Principal and interest requirements to retire general obligation debt outstanding at year end are as follows:

Fiscal Year	Gen	eral Obligation Bor	ıds		CAB Bonds	
Ending June 30	Principal	Interest	Total	Principal	Interest	Total
2021	\$8,340,000	\$5,419,004	\$13,759,004	\$933,732	\$546,268	\$1,480,000
2022	8,825,000	5,022,883	13,847,883	533,833	896,167	1,430,000
2023	9,745,000	4,588,001	14,333,001	194,383	685,617	880,000
2024	11,440,000	4,114,884	15,554,884	0	0	0
2025	12,070,000	3,606,177	15,676,177	0	0	0
2026-2030	34,885,000	8,158,421	43,043,421	0	0	0
2031-2035	27,660,000	2,605,486	30,265,486	0	0	0
Total	\$112,965,000	\$33,514,856	\$146,479,856	\$1,661,948	\$2,128,052	\$3,790,000

Legal Debt Margin

The district is subject to a debt limit that is 9 percent of the full assessed valuation of taxable real property. At June 30, 2020 that amount was \$281,889,906. As of June 30, 2020 the total outstanding debt applicable to the limit was \$123,573,706 which is 33.69 percent of the total debt limit.

Note 7 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions/OPEB are provided to an employee on a deferred payment basis as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the employer's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the employer's obligation for this liability to annually required payments. The employer cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the employer does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 8 for the required OPEB disclosures.

Plan Description - School Employees Retirement System (SERS)

Plan Description

Non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, standalone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to	Eligible to
	Retire on or before	Retire on or after
	August 1, 2017 *	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit

recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy

Plan members are required to contribute 10 percent of their annual covered salary and the employer is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2020, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The contractually required contribution to SERS was \$4,344,883 for fiscal year 2020. Of this amount \$482,995 is reported as accrued wages and benefits.

<u>Plan Description - State Teachers Retirement System (STRS)</u>

Plan Description

Licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective Aug. 1, 2017 through July 1, 2019, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective Aug. 1, 2019–July 1, 2021, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 28 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy

Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2020, the full employer contribution was allocated to pension.

The contractually required contribution to STRS was \$12,012,096 for fiscal year 2020. Of this amount \$2,032,964 is reported as accrued wages and benefits.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

<u>-</u>	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$51,247,842	\$152,092,062	\$203,339,904
Proportion of the Net Pension Liability:			
Current Measurement Date	0.85653250%	0.68775128%	
Prior Measurement Date	0.81318470%	0.66816246%	
Change in Proportionate Share	0.04334780%	0.01958882%	
Pension Expense	\$8,803,107	\$23,978,034	\$32,781,141

At June 30 2020, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$1,299,532	\$1,238,283	\$2,537,815
Changes of assumptions	0	17,866,150	17,866,150
Changes in employer proportionate share of net			
pension liability	1,591,692	4,502,581	6,094,273
Contributions subsequent to the measurement date	4,344,883	12,012,096	16,356,979
Total Deferred Outflows of Resources	\$7,236,107	\$35,619,110	\$42,855,217
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$0	\$658,376	\$658,376
Net difference between projected and			
actual earnings on pension plan investments	657,829	7,433,436	8,091,265
Changes in employer proportionate share of net			
pension liability	234,024	347,974	581,998
Total Deferred Inflows of Resources	\$891,853	\$8,439,786	\$9,331,639

\$16,356,979 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fisca	l Year

Ending June 30:	SERS	STRS	Total
2021	\$2,340,786	\$11,227,392	\$13,568,178
2022	(670,709)	2,485,861	1,815,152
2023	(43,775)	(194,260)	(238,035)
2024	373,069	1,648,235	2,021,304
Total	\$1,999,371	\$15,167,228	\$17,166,599

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited

service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Inflation 3.00%

Future Salary Increases, including inflation 3.50% - 18.20%

COLA or Ad Hoc COLA 2.50%

Investment Rate of Return 7.50% net of investments expense, including inflation

Actuarial Cost Method Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement. The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

This Space Intentionally Left Blank

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	1.00%	0.50%
US Equity	22.50%	4.75%
International Equity	22.50%	7.00%
Fixed Income	19.00%	1.50%
Private Equity	10.00%	8.00%
Real Assets	15.00%	5.00%
Multi-Asset Strategies	10.00%	3.00%
Total	100.00%	

Discount Rate

The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
_	6.50%	7.50%	8.50%
Proportionate share of the net pension liability	\$71,816,547	\$51,247,842	\$33,998,407

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation, are presented below:

Inflation	2.50%
Projected salary increases	12.50% at age 20 to 2.50% at age 65
Investment Rate of Return	7.45%, net of investment expenses, including inflation
Discount Rate of Return	7.45%
Payroll Increases	3.00%
Cost-of-Living Adjustments (COLA)	0%

41

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Rate of Return **
Domestic Equity	28.00%	7.35%
International Equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed Income	21.00%	3.00%
Real Estate	10.00%	6.00%
Liquidity Reserves	1.00%	2.25%
Total	100.00%	

^{*} Target weights will be phased in over a 24-month period concluding on July 1, 2019.

Discount Rate

The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

^{**10} Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

	1%	Current	1%
	Decrease	Discount Rate	Increase
<u>_</u>	6.45%	7.45%	8.45%
Proportionate share of the net pension liability	\$222,265,605	\$152,092,062	\$92,686,564

Note 8 - Defined Benefit OPEB Plans

See Note 7 for a description of the net OPEB liability (asset).

<u>Plan Description - School Employees Retirement System (SERS)</u>

Health Care Plan Description

The employer contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2020, the employer's surcharge obligation was \$415,251.

The surcharge, added to any allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The contractually required contribution to SERS was \$415,251 for fiscal year 2020. Of this amount \$415,251 is reported as accrued wages and benefits.

Plan Description - State Teachers Retirement System (STRS)

Plan Description

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy

Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liabilities (Assets), OPEB Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability (asset) was based on the employer's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

	SERS	STRS	Total
Proportionate Share of the Net OPEB Liability Proportionate Share of the Net OPEB (Asset)	\$21,746,888 0	\$0 (11,390,809)	\$21,746,888 (11,390,809)
Proportion of the Net OPEB Liability/Asset:	Ü	(11,330,003)	(11,330,003)
Current Measurement Date	0.86475970%	0.68775128%	
Prior Measurement Date	0.82345780%	0.66816246%	
Change in Proportionate Share	0.04130190%	0.01958882%	
OPEB Expense	\$732,225	(\$3,486,705)	(\$2,754,480)

At June 30 2020, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

This Space Intentionally Left Blank

	SERS	STRS	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$319,227	\$1,032,664	\$1,351,891

Total	(\$2,817,680)	(\$12,394,149)	(\$15,211,829)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan

members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

Inflation 3.00%

Future Salary Increases, including inflation 3.50% to 18.20%

Investment Rate of Return 7.50% net of investment expense, including inflation

Municipal Bond Index Rate:

Measurement Date 3.13% Prior Measurement Date 3.62%

Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Measurement Date 3.22% Prior Measurement Date 3.70%

Medical Trend Assumption:

 Medicare
 5.25% to 4.75%

 Pre-Medicare
 7.00% to 4.75%

Mortality rates among active members were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years. The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	1.00%	0.50%
US Equity	22.50%	4.75%
International Equity	22.50%	7.00%
Fixed Income	19.00%	1.50%
Private Equity	10.00%	8.00%
Real Assets	15.00%	5.00%
Multi-Asset Strategies	10.00%	3.00%
Total	100.00%	

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(2.22%)	(3.22%)	(4.22%)
Proportionate share of the net OPEB liability	\$26,396,597	\$21,746,888	\$18,049,824
	1% Decrease	Current Trend Rate	1% Increase
	(6.00% decreasing	(7.00% decreasing	(8.00% decreasing
	to 3.75%)	to 4.75%)	to 5.75%)
Proportionate share of the net OPEB liability	\$17,423,662	\$21,746,888	\$27,482,761

Assumption and Benefit Changes since the Prior Measurement Date

Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.70% Measurement Date 3.22%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.62% Measurement Date 3.13%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.70% Measurement Date 3.22%

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

Inflation 2.50%

Projected salary increases 12.50% at age 20 to 2.50% at age 65

Investment Rate of Return 7.45%, net of investment expenses, including inflation

Payroll Increases 3.00% Discount Rate of Return 7.45%

Health Care Cost Trends:

Medical

Pre-Medicare 5.87% initial, 4% ultimate Medicare 4.93% initial, 4% ultimate

Prescription Drug

Pre-Medicare 7.73% initial, 4% ultimate Medicare 9.62% initial, 4% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target <u>Allocation*</u>	Long-Term Expected Rate of Return**
Domestic Equity	28.00%	7.35%
International Equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed Income	21.00%	3.00%
Real Estate	10.00%	6.00%
Liquidity Reserves	1.00%	2.25%
Total	100.00%	

^{*} Target weights will be phased in over a 24-month period concluding on July 1, 2019.

Discount Rate

The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019 and June 30, 2018. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019 and June 30, 2018.

Sensitivity of the Proportionate Share of the Net OPEB (Asset) to Changes in the Discount and Health Care Cost Trend Rate

The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.45%)	(7.45%)	(8.45%)
Proportionate share of the net OPEB (asset)	(\$9,719,789)	(\$11,390,809)	(\$12,795,750)
	1%	Current	1%
	Decrease	Trend Rate	Increase
Proportionate share of the net OPEB (asset)	(\$12,916,657)	(\$11,390,809)	(\$9,522,020)

Assumption and Benefit Changes since the Prior Measurement Date

There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy

^{**10} Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Lakota Local School District, Ohio Notes to the Basic Financial Statements For The Fiscal Year Ended June 30, 2020

percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

There were changes in assumptions, which increased the total OPEB liability by approximately \$0.04 billion. The assumption changes included changes in healthcare costs and trends.

Note 9 - Contingent Liabilities

School Foundation

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2020 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2020 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.

However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District as of June 30, 2020.

Litigation

The District's attorney estimates that all other potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

Note 10 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the District carries commercial insurance. Below is a schedule of insurance coverage carried by the District:

This Space Intentionally Left Blank

Coverage	Company		Limits		ductible
Fleet	Liberty Mutual	\$1,000,000	per occurrence	\$1,000	collision/pd
Property	Liberty Mutual	396,481,617	blanket coverage	10,000	per loss
General liability	Liberty Mutual	1,000,000	per occurrence/		
	Liberty Mutual	2,000,000	aggregate		
Liability Umbrella	Liberty Mutual	10,000,000	aggregate		
Errors and Omissions	Liberty Mutual	1,000,000	aggregate	5,000	per loss
Crime theft	Liberty Mutual	10,000	per occurrence	500	per loss
			Public employee		
Faithful Daufaumana			blanket bond with		
Faithful Performance Bond	Liberty Mutual	40,000	faithful		
DUIIU			performance		
			endorsed on bond		

Medical and dental insurance benefits are offered to employees through Medical Mutual of Ohio. Dental insurance benefits are offered to employees through Dental Care Plus. The employees share the cost of the monthly premium for the coverage with the District.

There were no significant reductions in insurance coverage from the prior year. Also, there were no settlements that exceeded insurance coverage for the past three fiscal years.

Note 11 - Jointly Governed Organizations

Pursuant to an interlocal agreement authorized by state statute, the District participates in the Southwestern Ohio Computer Association (SWOCA), which is a computer consortium. SWOCA is an association of public school districts within the boundaries of Warren, Preble, and Butler counties and involves all cities that have school districts within these counties.

The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts.

SWOCA is governed by a board of directors consisting of one representative from each of the participating members. The District paid SWOCA a fee for services provided during the year. Financial information may be obtained from the Southwestern Ohio Computer Association, 3603 Hamilton-Middletown Road, Hamilton, Ohio.

The Butler Technology and Career Development School is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards. It possesses its own budgeting and taxing authority. The Butler Technology and Career Development School was formed to provide vocational education opportunities to the students of Butler County, including students of the District. Financial information can be obtained from the Butler Technology and Career Development School Treasurer, at 3604 Hamilton Middletown Road, Hamilton, Ohio 45011.

Note 12 – Accountability

The following individual funds had a deficit in fund balance at year end:

Fund	Deficit
Other Governmental Funds:	
Miscellaneous State Grants	\$11,475
Title VI-B	539,455
Title III	30,289
Title I	231,905
Title II-A	48,666
ESSER	597,959

Note 13 - Set-Asides

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	Capital
	Acquisition
Set Aside Reserve Balance as of June 30, 2019	\$0
Current Year Set Aside Requirements	2,962,420
Qualified Disbursements	(973,810)
Current Year Offsets	(1,988,610)
Set Aside Reserve Balance as of June 30, 2020	\$0

Note 14 - Interfund Transactions

Interfund transactions at June 30, 2020, consisted of the following individual fund receivables and payables and transfers in and out:

	Interfund		Trans	fers
	Receivable	Payable	In	Out
General Fund	\$1,336,445	\$0	\$0	\$1,770,329
Other Governmental Funds	0	1,336,445	1,770,329	0
Total All Funds	\$1,336,445	\$1,336,445	\$1,770,329	\$1,770,329

Transfers in and out and interfund balances are made to provide operating cash as needed.

Note 15 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

		Other Governmental	
Fund Balances	General	Funds	Total
Restricted for:			
Other Grants	\$0	\$204,609	\$204,609
Student Activities	0	1,330,088	1,330,088
Auxiliary Services	0	79,744	79,744
Food Service	0	551,468	551,468
Debt Service	0	13,247,973	13,247,973
Permanent Improvement	0	2,782,849	2,782,849
Total Restricted	0	18,196,731	18,196,731
Committed to:			
Budget Stabilization	4,304,536	0	4,304,536
Total Committed	4,304,536	0	4,304,536
Assigned to:			
Budgetary Resource	8,530,051	0	8,530,051
Encumbrances	332,218	0	332,218
Public School Support	566,344	0	566,344
Total Assigned	9,428,613	0	9,428,613
Unassigned (Deficit)	82,887,774	(1,459,749)	81,428,025
Total Fund Balance	\$96,620,923	\$16,736,982	\$113,357,905

Encumbrances (assigned) will be used for \$22,489 for EIA books, \$2,371 for computers, \$14,784 for instructional supplies, \$31,626 for building signage, \$8,601 for projector, \$1,400 for chairs, \$5,616 for printers, \$5,160 for trash removal, \$5,541 for roof repairs, \$40,004 for maintenance supplies, \$3,208 for custodial supplies, \$3,929 for grass cutting, \$102,540 for copiers and copiers repairs, \$11,517 for Gaggle license, \$3,823 for internet charges, \$1,755 for Allerton Hill consulting, \$9,837 for Sunguard training, and \$58,017 for other purposes.

Note 16 – Construction and Other Commitments

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

53

Fund	Amounts
General	\$303,421
Nonmajor Governmental	1,517,348
Total	\$1,820,769

Note 17 – Tax Abatements entered Into By Other Governments

Other governments entered into property tax abatement agreements with property owners under the Enterprise Zone Agreement ("EZA") program with the taxing districts of the District. The EZA program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in the community. Within the taxing districts of the District, other municipalities have entered into EZA agreements. Under these agreements the District's property taxes were reduced by \$796,836. The District received \$524,064 in association with the forgone property tax revenue.

Note 18 – Implementation of New Accounting Principles

For fiscal year 2020, the District has postponed implementation of Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, GASB No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, and GASB No. 90, Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61. The District did not implement these statements due to the GASB postponing the implementation by 12 months because of the COVID-19 pandemic.

Note 19 – COVID-19

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures could impact subsequent periods of the District. The District's investment portfolio could incur a significant decline in fair value. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the District's future operating costs, revenues, the impact of the investments of the pension and other employee benefit plan in which the District participates and any recovery from emergency funding, either federal or state, cannot be estimated.

Note 1 - Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of control has been established by Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2020.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as assigned to a fund balance for governmental fund types and expendable trust funds (GAAP basis).
- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
- 5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis to the budgetary basis for the general fund.

Net Change in Fund Balance

	General
GAAP Basis	\$4,075,384
Revenue Accruals	(3,683,742)
Expenditure Accruals	1,429,627
Transfers (In)	4,304,536
Transfers (Out)	(4,401,356)
Advances (Out)	(597,959)
Encumbrances	(303,421)
Funds Budgeted Elsewhere	(105)
Budget Basis	\$822,964

Note 2 - Net Pension Liability

School Employees Retirement System (SERS)

Changes in Benefit Terms:

2020: There were no changes in benefit terms from the amounts reported for this fiscal year.

2019: With the authority granted the Board under Senate Bill 8, the Board has enacted a three year COLA delay for future benefit recipients commencing benefits on or after April 1, 2018.

2018: SERS changed from a fixed 3% annual increase to a Cost of Living Adjustment (COLA) based on the changed in the Consumer Price Index Index (CPI-W), with a cap of 2.5% and a floor of 0%.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2018-2020: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2017: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates,
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for

For The Fiscal Year Ended June 30, 2020

male rates and 100% for female rates, set back five years is used for the period after disability retirement, and

(8) The discount rate was reduced from 7.75% to 7.50%.

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

State Teachers Retirement System (STRS)

Changes in Benefit Terms:

2019-2020: There were no changes in benefit terms from the amounts reported for these fiscal years.

2018: STRS decreased the Cost of Living Adjustment (COLA) to zero.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2019-2020: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2018: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The long term expected rate of return was reduced from 7.75% to 7.45%,
- (2) The inflation assumption was lowered from 2.75% to 2.50%,
- (3) The payroll growth assumption was lowered to 3.00%,
- (4) Total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation,
- (5) The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016, and
- (6) Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

Note 3 - Net OPEB (Asset)/Liability

School Employees Retirement System (SERS)

Changes in Benefit Terms:

2017-2020: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2020: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Prior Measurement Date 3.70% Measurement Date 3.22%

(2) Municipal Bond Index Rate:

Prior Measurement Date 3.62% Measurement Date 3.13%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

For The Fiscal Year Ended June 30, 2020

Prior Measurement Date 3.70% Measurement Date 3.22%

2019: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(4) Discount Rate:

(5) Municipal Bond Index Rate:

Prior Measurement Date 3.56% Measurement Date 3.62%

(6) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Prior Measurement Date 3.63% Measurement Date 3.70%

2018: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

(1) Discount Rate:

Fiscal Year 2018 3.63% Fiscal Year 2017 2.98%

(2) Municipal Bond Index Rate:

Fiscal Year 2018 3.56% Fiscal Year 2017 2.92%

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

Fiscal Year 2018 3.63% Fiscal Year 2017 2.98%

2017: The following changes of assumptions affected the total OPEB liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates, and
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

State Teachers Retirement System (STRS)

Changes in Benefit Terms:

2020: There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen

Lakota Local School District, Ohio Notes to the Required Supplementary Information For The Fiscal Year Ended June 30, 2020

subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

2019: The subsidy multiplier for non-Medicare benefit recipients was increased from 1.900% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. The Board is extending the current Medicare Part B partial reimbursement program for one year. Under this program, benefit recipients currently enrolled in the STRS Ohio Health Care Program and Medicare Part B receive \$29.90 per month to reimburse a portion of the Medicare Part B premium. The reimbursement was set to be reduced to \$0 beginning January 1, 2020. This impacts about 85,000 benefit recipients.

2018: The subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2019.

2017: There were no changes in benefit terms from the amounts reported for this fiscal year.

Changes in Assumptions:

2020: There were changes in assumptions during the measurement year, which increased the total OPEB liability by approximately \$0.04 billion. The assumption changes included changes in healthcare costs and trends.

2019: The discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB). Valuation year per capita health care costs were updated.

2018: The discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this fiscal year.

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Debt Service Fund

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Project Fund

The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects fund exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

NONMAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

Other Grants - To account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

Student Activities - To account for those student activity programs which have student participation in the activity but do not have student management in the programs. This fund includes athletic programs as well as the band, cheerleaders, flag corps and other similar types of activities.

Auxiliary Services - To account for state funds which provide services and materials to students attending non-public schools within the boundaries of the District as provided by state law.

Miscellaneous State Grants - To account for state funds that are legally restricted to expenditures for specified purposes.

Title VI-B - To account for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialist in providing educational services to the handicapped.

Title III - Federal grant used to account for federal monies provided to support the District's ESL population.

Title I - To account for federal funds for services provided to meet special educational needs of educationally deprived children.

EHA Pre-School - This program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Title II-A - To account for federal funds to provide programs to enhance student achievement.

Miscellaneous Grants - To account for various monies received directly from the federal government, which are, not classified elsewhere.

High Schools That Work - To account for funds related to the High Schools that Work program.

Food Service - To account for all revenues and expenses related to the provision of food services, including breakfast and lunch, for the District students and staff.

Student Wellness and Success - To account for student mental health services, mentoring programs, or child welfare involved youth, etc.

ESSER - To provide emergency relief grants to school districts related to the COVID-19 pandemic.

NONMAJOR DEBT SERVICE FUND

Fund Description

Debt Service Fund - To account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. The debt service fund should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in the debt service fund. The Balance Sheet and Statement of Revenues, Expenditure and Changes in Fund Balances are included in the Non major Governmental Fund combining financial statements. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

NONMAJOR CAPITAL PROJECTS FUND

Fund Description

Permanent Improvement - To account for financial resources, to be used to maintain the District's facilities, as well as provide for major equipment and instructional material purchases. The Balance Sheet and Statement of Revenues, Expenditure and Changes in Fund Balances are included in the Non major Governmental Fund combining financial statements. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

OTHER GENERAL FUNDS

With the implementation of GASB Statement No. 54, certain funds that the District prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The District has only presented the budget schedules for these funds.

Fund Descriptions

Public School Support - To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

Underground Storage Tanks - To account for local funds which are provided in the event of an underground storage tank leak.

Uniform School Supply - To account for the purchase and sale of school supplies as adopted by the Board of Education for use in all schools of the District.

Adult Education - To account for all revenues and expenses related to education classes for adults.

NONMAJOR FUNDS

Fiduciary funds

Fiduciary fund types are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental unites and/or other funds.

Student Activities (Agency Fund) – Fund used to account for resources that belong to various student groups in the District. Students are involved in the management of the program.

Athletic (Agency Fund) – Fund used as a clearing account to distribute tournament monies to other funds of the school district and to the Ohio High School Athletic Association (OHSAA).

STATISTICAL SECTION

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents

Financial Trends - These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

Revenue Capacity - These schedules contain information to help the reader understand and assess the District's most significant local revenue source, the property tax.

Debt Capacity - These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Economic and Demographic Information - These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources - Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note:

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. The tangible personal property values were phased out for the 2009 calendar year.
