Re: 2017-2020 Strategic Plan Extension

Extenuating circumstances tied to the global COVID-19 pandemic have impacted the operations of our district in unprecedented ways. One of which was the expiration our strategic plan at the end of 2020. As a group we discussed the desire to find times that fit within the board's and the superintendent's schedules to start this work. Alas, the pandemic and the changing nature of school and our shifting modes of learning have complicated attempts to do many things, particularly as other matters were of a higher priority.

With that, I am recommending that at the end of the 2020-2021 school year, and with the potential of two new members joining our board of directors in December, we extend this current plan until the end of the end 2022 at the latest. This extension gives our new board a chance to assess the state of the district and to work with me, our staff, parents, and community on a new strategic plan. The new plan would go into effect once it is adopted by the board.

Sincerely,

Michael R. Farmer
Superintendent
