

Snowman

One person thinks of a word or phrase and draws a dash for each letter in that word/phrase. The other tries to guess the word/phrase one letter at a time.

If the letter that is guessed is contained in the word/phrase, write the letter on each dash where it will appear. If the letter that is guessed is not contained in the word/phrase, write the letter in a discard list and draw one part of the snowman.

To win, the word/phrase must be guessed correctly before the snowman is complete.
