AP Tips for a "5"

2021-2022

What is AP?

The AP Program offers college level courses and exams that you can take in high school.

An Edge in College

Taking AP courses in high school could give you an advantage in college by letting you:

- 1.) earn college credit
- 2.) save money & time
- 3.) earn advanced placement
- 4.) stand out to colleges

A Head Start in High School

Research shows that AP students are better prepared for college than students who don't take AP. They're more likely to enroll and stay in college, do well in their classes, and graduate in four years. Taking AP can help you:

- 1.) Get a taste of college
- 2.) Develop college skills
- 3.) Discover your passion

Your AP Journey

Here are the steps on the path to college credit and placement:

- 1.) Sign up
- 2.) Take the course
- 3.) Take the exam
- 4.) Send scores

AP Exam Study Tips

-Know what you need to review

If you know there is a certain topic you're not as good at, study it harder.

-Take practice exams and questions

Find exams and questions over your subject to practice before you end up taking the exam.

-Consistently practice

Make practicing and prepping for the AP Exam routine. Practice as much as you can.

-Sleep the night before

Getting a good night's sleep is important the night before the Exam. Cramming will only stress you out more and hinder your results and capability of getting a good score.

Take your time, and good luck!
