RE: School Bus driver shortage and 2-hour delay rotation

The national and regional shortage of school bus drivers (CDL with passenger endorsement) has reached a critical point, and is affecting our ability to operate at full capacity. This shortage may soon impact in-person learning. We started the year with a full complement of drivers and substitutes to cover all of our bus routes and van runs. For a variety of reasons, including illness, we are no longer fully staffed. This week we have combined several routes and consolidated ridership. **Beginning tomorrow (Thursday, September 16, 2021) we will implement a rotating 2-hour delay schedule. We will only activate a 2-hour delay, if the district is unable to transport all students.** Families will receive notification of the 2-hour delay in the same manner as a [weather delay](#). Please make sure your information is correct in School Messenger. We are working on a long-term plan should the driver shortage continue or occur again this winter. We are sharing our plan to help you prepare should the need arise to operate on a 2-hour delay schedule. If a 2-hour delay is activated, the district will combine buses and adjust ridership for a normal dismissal at 3:05pm. Your continued patience and support are appreciated.
