PROJECT: POMFRET

Every year we set aside 10 days to explore and investigate problems that inspire and perplex us.

QUEST

Born from a handful of simple but important questions, QUEST is the cornerstone of our student life curriculum.

GLOBAL STUDIES

Our travel program gives students the opportunity to study for credit in places like Morocco, Spain, Peru, France, Costa Rica, and Maine.

CERTIFICATE PROGRAM

A college major for high school students. Our certificate tracks offer deep exposure to a specific area of study during your time at Pomfret.

HELIOS PROJECT

The Helios Project is a passive solar aquaponics greenhouse built by students to support environmental research. It also supplies fresh produce to local food pantries.

SCHWARTZ VISITING FELLOWSHIP

Since 1989, the Schwartz Visiting Fellowship has brought world-renowned experts like David McCullough and Shirley Chisholm to the Pomfret School campus.

ONE OF THE BEST SMALL SCHOOLS IN THE NATION

Pomfret was recently ranked in the top 3 percent of all independent schools in the country, according to [Niche.com](#) — a recognized leader in secondary school rankings.

COLLEGE LIST

AMHERST, BATES, BU, UCONN, CORNELL, DARTMOUTH, EMORY, HOWARD, MIDDLEBURY, NYU, UPENN, TRINITY, UVA, WESLEYAN, WILLIAMS, WEST POINT
