About the audit

This report contains the results of our independent accountability audit of Issaquah School District No. 411 from September 1, 2018 through August 31, 2019.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

This audit was conducted under the authority of RCW 43.09.260, which requires the Office of the State Auditor to examine the financial affairs of all local governments. Our audit involved obtaining evidence about the District's uses of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters. The procedures performed were based on our assessment of risks in the areas we examined.

Based on our risk assessment for the year ended August 31, 2019, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. We examined the following areas during this audit period:

- Professional learning – review of state funding expended for professional learning days
- Local revenue sub-fund – review established fund and recorded revenues and expenditures
- Self-insurance program – health and welfare (vision)
- IT controls – review controls over user access and data backup and recovery
- Accounts payable – review of general disbursements and credit card transactions, and electronic fund transfers (EFT) transactions for compliance with state law and District policies and to ensure transactions are properly supported and approved

- Payroll – review sick leave accruals and per diem payments for compliance with District policies and for adequate support and approval and are properly calculated
