

project SAVING SPECIES

CINCINNATI ZOO

JOIN OUR ANSWER THE CALL CAMPAIGN TO COLLECT AND RECYCLE CELL PHONES THROUGH THE CINCINNATI ZOO & BOTANICAL GARDENS.

HELP OUR ADVISORY TO WIN UP TO \$4,000 FOR OUR SCHOOL AND HELP TO SAVE GORILLAS! PHONES CAN BE TURNED IN TO ANY OF THE THREE CENTERVILLE MIDDLE SCHOOL OFFICES FOR PICK UP BY MRS. CLAPP!

Cell phones contain an ore called coltan. One of the only places in the world where this ore can be found is in the Democratic Republic of Congo – right in the middle of gorilla habitat. As a direct result of mining for coltan, the world's gorilla population is losing its habitat, being displaced and being killed by poachers. And the simple act of recycling a cell phone can make a difference, by reducing the need to mine for coltan (CZB).

Gladys wants a cell phone!
