Dear Preschool Families:

The CT State Department of Education is partnering with Sparkler, a mobile app screening tool for children ages 0-5. Sparkler is an evidence-based screening tool that helps to fuel early childhood development. It includes tracking tools, as well as content, to help parents and caregivers support their child's learning and development. Please see the information below, with specifics on how to access the Sparkler app!

A promotional graphic for the Sparkler app. On the left, a photograph shows a man and a young child walking away from the camera on a path during a sunset. In the center, a smartphone displays the app's interface, which includes the ASQ3 logo, a circular photo of a child, and the text "Let's see how much Leo has grown!" with a "Get Started!" button. To the right of the phone, the text "How's Your Child Doing?" is displayed in a large, white font. Below this, a paragraph describes the app's purpose: "Download sparkler for free today to check in on the development your 0-5 year old's heart, mind, body, and words with the Ages & Stages Questionnaires® and to find fun ways to learn through play together!". At the bottom right, there is a link: "Learn more: playsparkler.org/connecticut". The bottom of the graphic contains logos for the App Store, Google Play, the Connecticut Office of Early Childhood, and a "2-1-1" logo for Child Development.
