

➤ **David Beaudine**, Program Manager  
*Heery International*

David, a native of San Diego, moved up to the Pacific Northwest 14 years ago after completing his education at Cal Poly San Luis Obispo. Since that time he has been helping clients make their building visions and dreams become realities on projects ranging from airports to City Halls and of course K-12 facilities. Most recently David completed the renovation and addition for NEWTECH Skill Center as well as the Modernization and Additions at Ferris High School for Spokane Public Schools. David is Married with two little boys who are 5 and 3, and gets the most joy out of seeing the world from their eyes where everything is new, exciting and full of life. When not working or spending time with the family David is often found doing some form of sports, whether that is playing basketball, volleyball or golf or serving as President of the board for the Spokane Youth Sports Association (SYSA)

➤ **Rob Gross, Project Manager**

*Heery International*

Rob, originally from the City of Orange in So. California, transferred to the Northwest after a 17- year career in the Commercial High Rise Industry, serving as a Journeyman Iron Worker, and Carpenter prior to entering into the Project/Construction Management field. After completing several Higher Education Projects on the WSU campus (Todd Hall – French Administration Bldg. in the Mid 90's to name a few), He joined a Global Leader in the Insurance Restoration Construction Industry, as a Senior Project Manager/Estimator, traveling the country after Major Catastrophe's, Hurricanes, Earthquakes, and the 9-11 event, specializing in the redesign and Construction of High & Mid Rise Buildings, K-12 and College campuses. At the completion Tulane University, being the most complex after the devastation caused by Hurricane Katrina, he transitioned to K-12 Bond Projects in the State of Oregon, Portland Public School District being the most recent, he also provided Management services at Forrest Grove, Beaverton and Salem School Districts. Rob is married and has two High School age children who are 17 and 14 years of age, and is amazed how they have developing into great young adults. During time away from work, Rob travels to watch his son and daughter complete on their High School and Club teams, Baseball, Basketball and Soccer, and enjoys every minute of it.

➤ **Adriana Luna-Reyna, Admin Asst**

*Heery International*

Adriana is a recent hire at Heery International and a graduate of Quincy High School in 2012. Adriana now attends Big Bend Community College. She is studying in the Business Informational Management Program for Administrative Professional Services. Adriana strives to be involved in her community as much as possible. She has been in a youth group called Youth Action Interact since 2010. Youth Action Interact is about serving the community and providing opportunities such as alcohol and drug free events. Some events are: Movie Nights, National Night Out, Fun in the Park, Draw the Line, Drugs Fact Week, and many more. Recently Adrian became a newlywed on August 2, 2016 and she could not be happier with how her life is turning out.

➤ **Tom Harris, Facilities Director**  
*Quincy School District*

I am pleased and honored to be a part of the Quincy School District Construction Team. I will be completing my 31<sup>st</sup> year in education, serving the needs of our teachers and students on January 1, 2017. I started as a custodian, worked my way into the maintenance field, and for the past 22 years I have been serving as the Facilities Director for the Quincy School District.

My wife and I have three wonderful children that received their education here in Quincy. They have provided us with four wonderful grandchildren who we love dearly, we just found out that we have a fifth grandchild on the way and he will be arriving in November. We enjoy spending time camping with our children and grandchildren.

On a professional note I am currently serving as Quincy City Councilman, serve on the Grant County Health District Board of Directors and I am the President of the Washington State Association of Maintenance and Operations Administrators.

I am really looking forward to working with the team to bring new and exciting facilities to the teachers and students of our community. I am very passionate about our Quincy community and I am excited to be involved in these projects. These projects are going to bring positive change to our School District and Community.

➤ **Margie Mills, Admin Asst**  
*Quincy School District*

Margie and her family are fairly new to Quincy, having only been here about 4 years. Prior to Quincy they had lived in Portland, OR, Seattle, WA and Sacramento, CA. Margie has worked for the Quincy School District for about a year, prior to that she was a stay at home mom for nearly 15 years. While their family is newer to Quincy they have fallen in love with the community and the schools. Margie and her husband have a 13-year old daughter and a 16-year old son and a majority of their time is spent doing what they love which is watching their daughter play volleyball and ride rodeo and watching their son play football, basketball, and rugby. They also love to go camping as a family and go on vacation to Disney. Margie is really enjoying her work with the school district and is looking forward to working on the upcoming construction projects and seeing the school district grow and flourish.

Brent Harding is passionate about creating inspiring environments for student learning. Achievement of this goal is rooted in the programming stage and then must be carried through all subsequent stages of planning and design. Brent has 25-plus years of experience in educational planning and successfully leading complex educational projects through programming and planning. Past experience with the funding and prioritization processes enables Brent to smoothly facilitate navigation of the program development, thereby keeping the project on track for schedule, program and budget. His cooperative team approach, not just involves, but truly hears and addresses the needs of all stakeholders and reliably facilitates the highest degree of consistency between building program composition and client expectations.

Over the past 16 years Melissa has focused her career on creating spaces for children to learn, grow and flourish. She will lead the Quincy community through the design process culminating in a design that not only meets the educational and maintenance requirements, but also inspires and excites the students and staff who enter the building each day. Melissa's leadership skills are centered around clear, concise communication and establishing a close working relationship with each client to walk with them through the design and construction journey. You will be challenged to find a more dedicated designer for Quincy's Elementary Schools.

Angela will be responsible for implementation of the project design and overall team coordination. Angela will assist Melissa, taking the team management lead during design and construction document production. Angela's projects span a range of K-12 schools, also on both sides of the state. She provides strong leadership, emphasizing client communication and collaboration to develop high-quality sustainable building design and well-organized and efficient plans. Angela believes in developing long-term client relationships through quality design - always striving to produce architecture beyond the client's expectations.

One of the founding principals of NAC Architecture, Steve has devoted his career to educational planning and design. He has considerable experience in the leadership position of principal-in-charge, assuming this role for complex projects since the early 1980s. His portfolio spans a broad spectrum of educational projects ranging from K-12 to higher education. Much of Steve's success is due to his effective management style and his willingness to be deeply involved at the program stage, through the design phases, and in the technical specifications.
