

MY CHILD IS SICK – WHEN CAN THEY RETURN TO SCHOOL?

IF YOUR CHILD IS SICK, PLEASE KEEP THEM HOME! (AND USE THIS PAGE)

Close contact without symptoms? Please use page 2. If any member of your household is awaiting the results of a COVID-19 test, your child / children must stay home unless they are fully vaccinated!

Q ■ Has your child tested positive for COVID-19?

YES NO

See Page 3

Q ■ Has your child had a known exposure to COVID-19?

YES NO

Q ■ Was the exposure inside or outside your household?

INSIDE OUTSIDE

Symptoms:
Cough
Headache
Runny Nose
Congestion
Nausea
Vomiting or Diarrhea

Symptoms:
Fever 100.4 or Above
Loss of Taste
Loss of Smell
Sore Throat or Body Aches

- Notify the Timothy Health Team and consult with your child's healthcare provider.
- Your child must isolate for 10 days.
- All children in the household (Timothy students) must quarantine for 14 days since the last contact with the suspected case (unless the sibling is symptom-free and fully vaccinated).

- Notify the Timothy Health Team and consult with your child's healthcare provider.
- Your child must isolate for 10 days.
- All children in the household (Timothy students) must quarantine for 14 days since the last contact with the suspected case (unless the sibling is symptom-free and fully vaccinated).

- Requires 24 hours of no symptoms before returning to school.
- With a combination of these or other symptoms, you may be contacted by a nurse to follow up and determine if further action is needed, including requiring medical clearance to return to school.

- Notify the Timothy Health Team and consult with your child's healthcare provider.
- A negative PCR result or an alternative diagnosis from a healthcare provider must be sent to the health team before the student can return to school.
- As another option, your child may choose to isolate at home for 10 days without testing or receiving an alternative diagnosis.
- For these specific symptoms, fully vaccinated students may return after 24 hours of no symptoms.

Depending on symptoms, siblings in the household may be able to come to school if the symptomatic child has a negative PCR test or alternative diagnosis from a healthcare provider. Please consult with the Health Team.

MY CHILD FEELS FINE, HAS NO SYMPTOMS, BUT WAS EXPOSED.

CLOSE CONTACT BUT SYMPTOM FREE? (USE THIS PAGE!)

If any member of your household is awaiting the results of a COVID-19 test, your child / children must stay home unless they are fully vaccinated!

For all individuals where exposure occurred outside of the classroom setting, CDC defines a close contact as an individual not fully vaccinated against COVID-19 who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period.

Q ■ Was the exposure indoors or outdoors?

IN **OUT**

Q ■ Is your child fully vaccinated?

NO **YES**

COME TO SCHOOL!

- Monitor for symptoms twice daily.
- Your child may come to school if symptom-free (if symptoms develop at any time, please refer to page 1).
- Contact the health team for more information regarding optional quarantine.

- All children in the household (Timothy students) must quarantine for 14 days since the last contact with the positive case.
- Notify the Timothy Health Team and consult with your child's healthcare provider.
- Monitor for symptoms twice daily.

FULLY VACCINATED means it has been more than 2 weeks since the second dose of the Moderna or Pfizer vaccine or 2 weeks since the single dose of the Johnson & Johnson vaccine. Please discuss this with the health team **prior to sending your child to school.**

If your child has had a positive Covid test or a positive antibody test (with an FDA-authorized test) in the past 90 days AND is without symptoms, he/she may come to school:

- If there is an exposure to Covid inside or outside of your home
- If someone in your home is waiting for test results

Please discuss this and provide test documentation to the health team **prior to sending your child to school.**

WHAT IF MY CHILD TESTS POSITIVE FOR COVID-19?

- Notify the Health Team!
 - Have at least 10 days passed since symptom onset?*
 - Have you been fever free (less than 100.4°F without fever-reducing medication) for at least 24 hours? AND
 - Have your symptoms improved?
- *For asymptomatic individuals, has it been 10 days since your first positive COVID-19 test?

NO

YES

STAY HOME!

YOU MAY COME TO SCHOOL!

- **For asymptomatic individuals who test positive for COVID-19:**
- The CDC now advises that such individuals may discontinue their isolation and other precautions 10 days after their first positive COVID-19 test. If an asymptomatic individual becomes symptomatic, he or she is advised to follow the guidelines for individuals with symptoms.

- **Even if another family member tests positive, you may come to school.**
- You must sign and complete a Return From Isolation Letter and email to covid@timothychristian.com
- You must check-in with the school nurse or building administrator for a health screening when you arrive at school.
