Describe any strategies and actions that were determined to be:

1. Effective: Our team collaborated well. Responsibilities were divided between team members. All members were ready and willing to assist with some very time-consuming programs.

Collaboration with other international schools in Bishkek was also a wonderful experience for students, staff, and parents.

2. Ineffective: We are learning how to navigate language barriers and find the best external companies to work with in designing uniforms, banners, and other items so that we can keep costs down while providing quality materials.

We have some difficulty acquiring equipment for sports such as Kung Fu.
