

Course Name	Block	Course Description	Pre-requisites	Teacher
ER100 : Good Eats – The science of culinary arts	1,2	Come explore the science behind what makes food so tasty. This course will explore the importance of science in proper execution of cooking and baking. Students will study advances in cooking science and the use of equipment to learn how to make delicious recipes.	None	Analyn Coker
ER102 : Coffee-House Poetry	1,2	Jump into spontaneous writing, vintage poetry, and storytelling. In a relaxed atmosphere-reminiscent of the original coffeehouse poets, the Beatniks-we'll enjoy coffee tastings and poetry slams all while sharpening speaking and writing skills. Coffee-House Poetry is a safe space for any beginning speaker or performer.	None	Sally Berry
ER103 : Alfred Hitchcock: Master of Suspense	1,2	British screenwriter, producer and director, Alfred Hitchcock, is known around the world as the "Master of Suspense." In this class, we will investigate what made Hitchcock's mystery movies so thrilling, memorable and fun. Be prepared to watch, talk and create.	None	Sally Berry
ER106 : The Study of Cults	1	Through an examination of research, documentaries, and real-case studies, this course will examine cults and the techniques they use to recruit members. The primary focus of the course will be on learning how to identify characteristics that cults have in common, and students will examine theories of personality that make us vulnerable to manipulation. Deviant behavior will also be explored from the biological, psychological, and sociological perspective.	Juniors and Seniors ONLY	Connie Cantey
ER107 : Dogs	1	Basic obedience course for your dog. IN this course, you will learn how to work with your dog to learn basic commands.	Juniors and Seniors ONLY	Dann Cleveland
ER108 : Vietnam War and Popular Culture, television, and mass media	1,2	This course will introduce the causes, course, and briefly touch on the Vietnam War. We will use movies, documentaries, music, and television to show how the Americans view of the Vietnam War changed over 3 decades. Students will be required to read excerpts of certain books and primary sources.	Parent Waiver will be required due to the sensitive topic.	Trip Franklin
ER109 : The War on Terror	1,2	This course will look at the causes, course, and consequences of 9/11. We will study this time period starting in the 1990s by viewing movies, documentaries, reading from books like Horse Soldiers. We will study how popular culture has changed over time in their coverage of this ongoing struggle.	Parent waiver will be required due to the sensitive topic.	Trip Franklin
ER110 : Forensics	1,2	This course is designed for students to learn how crimes are solved by thoroughly exploring forensic science. The latest scientific and investigative techniques, as well as investigative terminology, will be learned and used as a means to analyze evidence of crime scenes.	Chemistry	Ashley Gresham
ER111 : Intro to Medical Field	1,2	This course is designed for students who have an interest in the medical field. Students will explore health care professions through reading, instruction, guest speakers, and taking trips to local health care facilities.	None	Ashley Gresham
ER112 : The History of Baseball in America	1,2	Using Ken Burn's documentary "Baseball", we will explore the history of baseball in America alongside the events of the corresponding periods. This course will have 2 hours of film each day and 1 hour of discussion.	None	Merle Henkel
ER114 : Glimpses into Foreign Missions	2	Does the thought of serving God overseas fascinate you? Explore some of the options as we look at the Biblical basis for missions, what it's like to live in a different culture, and some strategic approaches to missions.	None	Carol Jackson
ER115 : Staycation Gump Style	1,2	Play the role of a tourist in your own town as we explore all the famous and not so famous experiences Montgomery County has to offer. From Civil War to Civil Rights, from the Riverfront to Ramer, explore local attractions, landmarks, museums, and restaurants on and off the beaten path, sampling local foods and discovering what makes places like Chris's Hotdogs, the Kress Building, St. John's Church, the Montgomery Curb Market, Oakwood Cemetery, and a host of other locations unique to the history of both Montgomery County and the nation.	Cost of food and entry fees	Mala Kelley
ER116 : The Telefreak's Guide to Channel Surfing	1,2	From the office and The Andy Griffith Show to American Bandstand and American Idol, television has impacted our culture and values for more than sixty years. Grab your remote and popcorn as we review programming genres through the decades including reality television, children and teenage shows, romantic and situation comedies, crime, and courtroom dramas, soap operas, westerns, game and talk shows, sports, cooking, home improvement, and 24 hour news coverage. A smorgasbord for every TV junkie.	None	Mala Kelley
ER117 : World Cultures: Parts Unknown	1,2	This course explores various world cultures through the eyes of master chef turned reality TV Star Anthony Bourdain. Experience the economic, political, and social traditions- both ancient and modern- from the tips of the Andes to the neon lights of Seoul, all against the backdrop of local cuisine. This course includes the subtext of how a man with seemingly the greatest job imaginable struggled with substance abuse and his religious faith, ultimately succumbing to depression.	Juniors and Seniors ONLY; course fee	Jeff McIntyre

ER118 : The History, Etiquette, and Fundamentals of Golf	1,2	Students in this course will learn both an appreciation for the rules, traditions, and etiquette of golf, as well as the fundamentals of how to play the game through Operation 36: a program designed to teach the game from green to tee. The course will include extensive work outside the classroom, in both reading and practice.	Course fee, conduct requirement	Jeff McIntyre
ER119 : Flight & Aviation	2	Students will explore the fundamentals of flight, aerodynamics, drones and career opportunities in aviation. We will also discuss the history of modern flight.	None	Frank Parquette
ER120 : College and Scholarship Search Class and College Trips	1 & 2	This course will include research on colleges throughout the nation and available scholarships. The first week will include a two-day college trip to Samford University, University of Alabama at Birmingham, Vanderbilt University and Belmont University (weather permitting). The second week will include a five-day college trip to the University of Georgia, Furman University, Clemson University, University of North Carolina at Chapel Hill, Duke University, Wake Forest University, High Point University and Davidson College (weather permitting).	Priority to Junior	Elizabeth Mosley
ER121 : Life Skills	2	This course is designed to help prepare for future job opportunities and everyday life situations. The activities in this class will help build your professionalism, as well as equip each student with necessary life skills.	None	Greg Parker
ER122 : ACT Math Bootcamp I	1,2	Struggling with Math on the ACT? This class covers the ACT Math test in depth-important concepts and formulas, effective strategies, and tactics for beating the test and increasing your score. REAL ACT Math tests will be given throughout the course, so you can see exactly how these strategies are applied to real ACT questions. This class will help build your math confidence prior to taking the ACT.	Enrolled in Algebra II or higher	Terri Price
ER 123: ACT Math Bootcamp II	1,2	Struggling with Math on the ACT? This class covers the ACT Math test in depth-important concepts and formulas, effective strategies, and tactics for beating the test and increasing your score. REAL ACT Math tests will be given throughout the course, so you can see exactly how these strategies are applied to real ACT questions. This class will help build your math confidence prior to taking the ACT.	Enrolled in PreCal or higher	Terri Price
ER124 : Success and Significance	1,2	What is Success and what are the elements that create Success? What is Significance and how do we become Significant?	None	Bert Rice
ER125 : Leadership	1,2	What are the main forms of leadership? What is the best form? Movie clips with examples of different types offer a view on what they look like.	None	Bert Rice
ER126 : Baking Basics	1,2	We will start with basic kitchen skills including measuring and weighing ingredients before progressing into simple no bake recipes and then moving into more complex recipes. We will take advantage of the new mobile kitchen to put recipes in action. Our baked items will be used to bless others.	None	Kelley Rouze
ER127 : Hand Lettering Basics and Beyond	1,2	We will take things step by step to see your skills grow. Whether you have never lettered or have lots of experience, this will be a relaxing creative outlet. We will incorporate scripture along with simple watercolor techniques to bless others with our notes and projects.	None	Kelley Rouze
ER128 : Tea with Jane Austen	1	The class will study the life and works of Jane Austen as well as the Regency period in England (to include dress, food, music, and dance) We will read Austen's novel Pride and Prejudice, take a virtual tour of London, and discover why Austen is often considered a rebel and a feminist.	Novel and fabric purchase necessary	Scarlett Rowe
ER129 : Discover your calling	1,2	Calling: Where your gifts and the world's needs collide. In this course students will seek to gain direction in finding a career path that fits How God uniquely created them in His image.	None	Blake Smith
ER130 : 3D Printing: A Crash Course	1,2	Move into the 21st century and learn skills for your future career. 3D Printing is everywhere - engineering, medicine, architecture - it's inescapable. Get an edge with hands-on training in 3D design and printing. Students will experience the technical skills involved in operation of a 3D printer using Makerbot Replicator and Sketchbook printers. Students will design, slice and print creative projects. Get all the basics and move beyond with the goal of leaving this course with Makerbot certification in 3D printing.	None	Linda Haste

ER131 : The Joy of Classical Music	1,2	Whether you know a little or a lot or nothing at all, you will be comfortable in this class. We will demystify classical music as we look at and listen to great music of different styles and times. We will also meet the composers, hear about their spiritual lives, and become comfortable with different elements of music. We will hear the difference between a sonata and a concerto; learn what the conductor is really doing (and try our hand at some of his skills); and know when to clap at a performance. We will study different instruments, take a field trip or so, and possibly hear a concert of some kind in order to put our knowledge to use.	None	Alice Williams
ER132 : Amazing Museums	1,2	This course will cover major museums, especially in Europe, and in other parts of the world. Most museums will be about various forms of art, but others will be a bit different: The International Olympic Museum, a museum of musical instruments, and a few surprises. Not only will we study about the variety of items in the museum, but we will sometimes study the building itself as a museum. There may be field trips and other activities.	None	Alice Williams
ER133 : Theatrical Lighting 101	1	Learn to design, focus, and record theatrical lighting and Smartlights. Students will learn the basics of lighting design, become familiar with Trinity's lighting system, and design a scene, perhaps to be used for the US Spring Musical. Students will be exposed to outside speakers who do lighting design professionally.	None	Laura Williams
ER134 : Discover 5 Latin countries	1,2	Learn about music, gastronomy, films, traditional dressing, touristic and not touristic places in: Mexico, Colombia, Argentina, Peru and Venezuela. -We will learn how to cook iconic dishes from these countries. -Ask everything you want to know about the countries from invited native speakers. -Two field trips to local Mexican and Venezuelan restaurants.	None	Adriana Gomez-Zuniga
ER135 : Floral Design Course	1,2	Learn everything in basic techniques: -Principles of Design -Design elements and guidelines -Flower, foliage and base selection -Mechanic and supplies used in floral design -Selecting ribbons and tying basic bows -Field trip to "the field" and collect your own foliage -Field trip to local fresh flower supplier Arrangements to make: -Boutonnieres and corsages -Regular bouquet (circular and triangular) -Holiday wreath -Mailbox Christmas ornament -Arranging permanent flowers (succulent) -Asiatic arrangement	None	Adriana Gomez-Zuniga
ER136 : History of the Cold War & American Pop Culture	1,2	The Cold War era of 1945-1989 was a period not only of geopolitical struggle with the ever present looming threat of flashing into a nuclear war, it was also profoundly impactful on American Popular Culture. In this course, students will examine not only the history, but also its impact on the psyche of the United States. Growing up with backyard bomb shelters and school basements that served as Fallout Shelters, to science fiction that gave us nuclear mutated monsters and invaders from Mars. The impact on the mass popular culture and the growth of suburban consumerism all had their roots in the Cold War.	None	Bill Shelnett
ER138 : Introduction to Nursing	1,2	Are you interested in the field of Nursing? Come see what it is all about. We will talk about the classes you will have to take in college. Discuss and perform various skills required during nursing school. May take a field trip to tour a Nursing School to see a Day in the Life of a current student.	None	Jenny French
ER139 : Meal Prep & Planning	1	Discuss planning and shopping for a menu for a week. Tips on cooking in a dorm. Make a recipe book made from menu ideas. Visit a grocery store to shop for items. Cook and sample menu items.	Senior girls ONLY	Jenny French

ER140 : Czech It Out! Travel to Central Europe	1,2	This trip is designed for students interested in European history and culture in general, WWII aficionados and/or those with an interest in the Holocaust. During a twelve day adventure students will travel through three countries (Germany, Poland and the Czech Republic) to visit five of the great cities of Europe (Berlin, Munich, Warsaw, Krakow and Prague). Castles, cathedrals, museums, synagogues and concentration camps will take students from the medieval roots of those cities to the modern age and allow them to immerse themselves in both the glory and the shame of mankind. Travel dates: Jan 3 - Jan 14, 2022. Because all eligible travelers were informed of this trip at the end of last year, the deadline is upon us. The very last day to register is October 5th. Due to recent EU regulation changes all travelers must be fully vaccinated (including the two week waiting period following the second shot) before the departure date. Because of delays, having a passport in hand is also ideal. :)	Pre-requisites: This trip is open to sophomores, juniors and seniors who have completed or are currently registered for World History II or Holocaust Studies. Fees: Contact lthrasher@trinitywildcats.com or kweeks@trinitywildcats.com for pricing information and full itinerary.	Lucy Thrasher and Kristi Weeks
ER141 : Personal Finance	2	Understanding and managing personal finances are key to one's future financial success. This course will provide exposure to various personal finance topics including setting financial goals, investments/savings, budgeting, credit/debt, taxes and other critical concepts. After completing this course, the student should have a solid foundation for creating positive personal financial habits.	None	Matt Murphy
ER142 : The Art of Hospitality	2	Come learn and experience first-hand what it takes to plan events in your home and workplace. We will work on flower arranging, food, decorating, invitations, and more!	None	Jenny McClinton and Mary Elizabeth Collett
ER143 : The History of Montgomery	2	The founding, major events, and legacy of the City of Montgomery. Emphasis will be centralized on the past and present historical events, sites, and how religion has impacted Montgomery and its surrounding communities.	None	Andrew Crenshaw
ER144 : Athletic Training	2	In this course students will learn what it means to be an athletic trainer. Students will learn the basics of wound care, taping, emergency medicine, and therapeutic rehabilitation. They will have the opportunity to learn from several different guest speakers from different areas of the sports medicine field including physical therapy, orthopedic surgery, and EMT. This will be a very hands-on course that will hopefully spark student's interest in the sports medicine field as an exciting career option.	None	Hannah Foether
ER145 : Mixed-Media Art Fun	1	In this class, you will learn unique tricks that will make drawing much easier, fun ways to lay down paint, and how to use a variety of art mediums to create your own awesome and original mixed-media artworks. It is a class for beginners and experienced artists alike.	None	Natalie Stanley
ER146 : Intro to Photography	2	The beginning steps to capturing great images & hand finishing using Lightroom with simple editing tools. Learning to use a camera in manual mode, terms of photography and simple day to day tips on getting frame worthy photos.	None	Lindsey Gamble
