

PHLEBOTOMY TECHNICIAN AT LODI ADULT SCHOOL

This program is design to train students to draw blood samples in a clinical laboratory or public health setting. Over the course of the program, students will gain exposure to on-the-job duties that include drawing blood samples from patients, producing quality laboratory results, gaining the trust and confidence of patients, and much more.

The program includes 84 hours of classroom instruction and a 40-hour clinical phlebotomy externship. The program will prepare student to take the exam for Phlebotomy Technician Certification (CPT) from the National Healthcareer Association (NHA) and State license. Externships will be arranged by the Delta College Phlebotomy Program Coordinator.

100% Attendance is required.
