

With each Creative Lab group, we will work on studio practices such as using a sketchbook, workspace organization, maintenance of art materials & critique. We will use an “Artist’s Toolbox”; a notebook that catalogs the components that comprise all artwork. We will also learn about “Art Hacks”; rules & shortcuts artists live by! We will have a blast exploring a variety of materials and techniques while we make real world connections to infuse our art making with more meaning & intention. Hope to see you there!
