- ∅ For upcoming state testing it is critical that the headphone jack on all school laptops is working. Students in grades 9-11 with Acer laptops, please be sure you review the instructions I put in Teams last Thursday—it takes only a minute or two to follow the instructions and then to check if your headphone jack works. If it still does not work please complete the form or drop by the office ASAP. 12th grade students with Dell laptops should also check to ensure their headphone jack is working and either complete the form linked in Teams or stop by the office ASAP. Testing begins next week so please don't delay! Thank you!
