know the signs of emotional distress...

PERSONALITY CHANGE • AGITATED • WITHDRAWAL • POOR SELF-CARE • HOPELESSNESS

know the signs → reach out → listen → offer support

It's ok to ask for help. You are not alone. [1] Encourage youth to identify & talk to a trusted adult. [2] Students & parents can contact school administrators & counselors who can refer students for on-campus intervention services & outside support services. **Services vary on each campus.** Many off-campus services are free or offered on a sliding scale. [3] Students & parents can make a confidential report with StopIt App, online form or with an administrator to report harassing, bullying, intimidating, or threatening behavior.

Youth Mental Health First Aid... Parents, educators, coaches, providers, sign-up for a free 1-day training. Learn to recognize the warning signs and understand the risk factors for mental health and substance use concerns, strategies for how to help someone in crisis and non-crisis situations, and how to connect youth to appropriate care. Youth in our community need all of us! By increasing awareness and understanding, we change the focus to prevention and early intervention so that we are not always responding in crisis mode.
