

COVID-19 Guidelines for Parent Volunteers Working in the BPG Merchandise Room:  
While Barnhart School is not currently allowing parents to be on campus where students are present, we do value and appreciate their support of our program. Therefore, we are allowing parents to support the activities of BPG by volunteering their time on campus, as long as they follow these guidelines:

- Masks are required at all times.
- All volunteers must complete the COVID 19 Symptom screening and temperature check in the front office. Anyone showing signs of illness will not be allowed on campus.
- Parent volunteers are required to show proof of COVID-19 vaccination status.
- Parent volunteers will work only in designated student-free areas (i.e., Merchandise Room; Development Office)
- At no time will volunteers be allowed to interact with students, including their own children. They must not enter classrooms, offices, or spaces where students are present.
