

Policy Name:	Review of Premedical Course Requirements
Original Approval Date:	09-03-2021
Approving Officer/Committee:	Admissions Committee
Revision Dates and Notes:	
Related LCME Element(s) (if any):	10.1

- A. Policy** – On an annual basis, the Admissions Committee of the LSUHSC-S School of Medicine shall systematically review the premedical course requirements and recommended subjects and identify opportunities for improvements based on analysis of data.
- B. Purpose** – The purpose of this policy is to ensure entering medical students have appropriate foundational knowledge to successfully advance in the LSUHSC-S School of Medicine coursework.
- C. Scope** – This policy applies to the School of Medicine.

Procedure – Annually, the Medical Curriculum Council shall analyze the relationship between medical student performance and premedical course requirements and present recommendations and supporting data for changes to the premedical course requirements and recommended subjects to the Admissions Committee. The Admissions Committee shall consider these recommendations, makes adjustments as needed, and determines when any changes go into effect. Upon approval, the Admissions Committee shall report back to the Medical Curriculum Council on actions taken.
