

## **EQUAL EDUCATIONAL OPPORTUNITIES**

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the District School Committee will make every effort to protect the dignity of the students as individuals. It also will offer careful consideration and sympathetic understanding of their personal feelings, particularly with reference to their race, color, sex, gender identity, religion, homeless status, national origin, sexual orientation, pregnancy or pregnancy related conditions, or physical and intellectual differences.

To accomplish this, the Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law which prohibits discrimination in public school admissions and programs. The law reads as follows:

No child shall be excluded from or discriminated against in admission to a public school of any town, or in obtaining the advantages, privileges and course of study of such public school on account of race, color, sex, gender identity, religion, homeless status, national origin, pregnancy or pregnancy related conditions, or sexual orientation.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, guidance, and extracurricular and athletic activities.

All implementing provisions issued by the Board of Elementary and Secondary Education in compliance with this law will be followed.

**KEEFE REGIONAL TECHNICAL SCHOOL  
ADMISSION POLICY**

September 2021

**I. INTRODUCTION**

An admission process is necessary in vocational technical training programs where space is a limiting factor. Vocational technical training programs are designed and equipped to serve a specific maximum number of students safely. Consequently, a complex of such laboratories lacks both the space and flexibility to accommodate the possible needs and/or interests of all applicants. Therefore, a selection process is necessary.

All applicants to grades nine through twelve at Keefe Regional Technical School will be evaluated using the criteria contained in this Admission Policy. The Keefe Regional Technical School Committee approved this policy on \_\_\_\_\_

**II. EQUAL EDUCATIONAL OPPORTUNITY**

Keefe Regional Technical School admits students and makes available to them its advantages, privileges and courses of study without regard to race, color, sex, gender identity, religion, national origin, sexual orientation, disability or homelessness.

If there is a student with limited English proficiency, a qualified representative from Keefe Regional Technical School will assist the applicant in completing the necessary forms and assist in interpreting during the entire application and admissions process upon the request of the applicant.

Students with disabilities may voluntarily self-identify for the purpose of requesting reasonable accommodations during the entire application and admission process.

Information on limited English proficiency and disability submitted voluntarily by the applicant, for the purpose of receiving assistance and accommodations during the entire application and admission process, will not affect the applicant's admission to the school.

**III. ELIGIBILITY**

Any eighth, ninth, tenth or eleventh grade student who is a resident of the Keefe Regional Technical School District (Ashland, Framingham, Holliston, Hopkinton, and Natick) who expects to be promoted to the grade they seek to enter by their local district is eligible to apply for fall admission, or admission during the school year, subject to the availability of openings, to Keefe Regional Technical School. Resident students will be evaluated using the criteria contained in this Admissions Policy. Priority for admission is given to Keefe Regional Technical School District residents according to the District Agreement.

Transfer students from other Chapter 74 state-approved programs are eligible to apply for fall admission or admission during the school year to grades 9-12 in Chapter 74 state-approved programs, provided they expect to be promoted to the grade they seek to enter by their current school. Transfer students will be evaluated using the criteria contained in this Admission Policy. Out-of-district or nonresident students may apply. They will be evaluated according to the criteria contained in this admission policy and according to M.G.L. c.74 s.8A (please see the "guidelines for Vocational Technical Education Program Nonresident Student Tuition Process Pursuant to M.G.L. c.74 located at [www.doc.mass.edu/ctc/nonres.guidelines](http://www.doc.mass.edu/ctc/nonres.guidelines)). Priority for admission is given to Keefe Regional Technical School residents.

The Admissions Committee at Keefe Regional Technical School will oversee the entire admissions process. Based on scholastic achievement, record of unexcused absences, school behavior, local school recommendation, and interview, each applicant is assigned a point total. The point totals are listed in rank order from highest to lowest. The applicant with the highest point total is accepted first, followed by the next on the list and so on until all openings are filled. All applicants are accepted or placed on a waiting list. The waiting list is valid for the current school year. Applicants who are accepted are notified by mail and given a minimum of twenty (20) days to respond favorably to the acceptance.

If an acceptance is declined, admission is offered to the next applicant on the waiting list. This list is in descending order of points assigned according to the selection criteria. Applications received after the initial priority deadline (January 15) will be evaluated using the same criteria as other applications and the composite score will be integrated in rank order on the established waiting list.

All applicants whose applications are received by January 15, are notified of their status by a letter to their parent(s)/guardian(s) with proper notice to the local sending school's by March 15. ### **IX. ENROLLMENT**

In order to enroll at Keefe Regional Technical School for the fall, applicants must meet the criteria to be promoted by their local school district to the grade they seek to enter. If there is a decline in a student's performance after a student has been accepted to Keefe Regional Technical School, additional transition programming may be offered to support the student.

Acceptance and enrollment at Keefe Regional Technical School is conditioned upon the accuracy and completeness of a student's application. Keefe Regional Technical School reserves the right to revoke its conditional acceptance of a student, at any time, if it determines that the student, the student's parent(s)/guardian(s), or the student's sending school district provided inaccurate, or incomplete, information during the application process.

### **X. CAREER TECHNICAL PROGRAM PLACEMENT**

All ninth grade students who enroll at Keefe Regional Technical School participate in a Career Exploratory program designed to help them learn about their talents and interests relative to a variety of different Career Technical Programs. The Career Exploratory program consists of students exploring eight programs in total. The student is asked to select eight programs to explore prior to starting at Keefe Tech. This is traditionally done at Accepted Students Day in June. Students are guaranteed to be able to explore five out of their eight program choices during their freshman year, with the other three programs assigned at random depending on space available. This includes students exploring at least one program area that is non-traditional for their gender identity. Students will explore a new program every other week for three consecutive periods. During each of the eight scheduled Career Exploration blocks, all of the students will be assessed using the Keefe Tech Exploratory Scoring Rubric. The Exploratory Scoring Rubric includes the following grading categories and percentages:

***South Middlesex Regional Vocational Technical School District***

Grading Criteria	Score Percentage
Conduct, Safety & Respect	30%
Engagement and Employability	30%
Participation and Professionalism	40%

Each student will also receive an aptitude comment that is not calculated into their final technical program score. These aptitude comments are given to help the students and their parents/guardians make informed decisions about the overall fit and ability of the student to succeed in the program. Instructors will provide one of the following comments for each student:

- The student has demonstrated a superior level of aptitude for this technical program.
- The student has demonstrated a high level of aptitude for this technical program.
- The student has demonstrated a moderate level of aptitude for this technical program.
- The student has demonstrated a low level of aptitude for this technical program.

Students can earn up to 100 points in each of the eight scheduled Career Exploration blocks for a total maximum score of 800 points. In addition to the 800 possible points that students can earn during the eight scheduled Career Exploration blocks, students will receive up to 100 additional points for their grade point average, and up to 100 additional points for their school attendance. The maximum number of points that a student can earn during the Career Exploration program is 1000. The points awarded for student GPA will be based on each student's Term 1 grades. The points awarded for school attendance will be calculated based on student attendance through December 31st of the current school year. The following table outlines how points will be awarded for the grade point average and attendance portions of the placement scoring:

Student GPA	GPA Points	Student Absences	Attendance Points
4.0	100	0	100
3.7-3.9	95	1	95
3.3-3.6	90	2	90
3.0-3.2	85	3	85
2.7-2.9	80	4	80
2.3-2.6	75	5	75
2.0-2.2	70	6	70
1.7-1.9	65	7	65
1.3-1.6	60	8	60
1.2 or Below	55	9 or More	55

Student point totals will be calculated at the end of the Career Exploration program and students will be ranked based on

***South Middlesex Regional Vocational Technical School District***

the total number of points that they earned out of the 1000 possible points. The student with the highest overall point total will meet with representatives from the Guidance Department and select the technical program of their choice. This process will continue following the established rank order until all students have chosen a technical program.

It is the goal of the Keefe Regional Technical School to place every student in their first choice technical program. If this goal cannot be met, students will be asked to choose a technical program placement from the list of programs that have additional openings. Technical program enrollment is limited and not all students will be able to be placed in their first choice technical program. A waiting list will be maintained of students wanting to be placed in the oversubscribed technical programs. When an opening becomes available, the list will be reviewed by the Guidance Department and the highest-ranking student will be offered placement in that technical program. After placement, students continue to explore the technical program in which they were placed for the remainder of the school year in order for them to continue to learn about their talents and interests.

Students who wish to transfer from one technical program to another may apply for a transfer. Transfer requests will be considered subject to the availability of openings in the requested technical programs. Each transfer applicant will be interviewed and counseled individually, with the final decision left to the student and their parent(s)/guardian(s). All placements in Grades 10, 11, and 12 are subject to technical program availability. Students who wish to move from one technical program to another during the school year may apply for a transfer by meeting with their School Counselor and bringing in a signed permission statement from a parent/guardian. In making decisions about transfers from one technical program to another, the school will consider space availability in the technical program, a student's discipline record, record of unexcused absences, and current grades. The Guidance Office will consult with the Director of Career and Technical Education during this process. All decisions on technical program transfers will be made by the Director of Career and Technical Education after reviewing the specific circumstances of each transfer request. It should be noted that students transferring technical programs run the risk of not earning a Chapter 74 certificate and/or articulation credit based upon the timing of the student's transfer.

**8 Points (Needs Improvement):** The student sometimes paid attention to detail as they worked to complete the assigned technical tasks, and the student was sometimes working to the best of their ability. The student did not transition activities to the best of their ability (i.e. the student needed to be reminded more than twice during the class to pay attention to assignment details, stay engaged and working throughout the school day, help to facilitate lesson transitions...).

**7 Points (Unsatisfactory):** The student occasionally paid attention to detail as they worked to complete the assigned technical tasks, and the student was occasionally working to the best of their ability. The student did not transition activities to the best of their ability (i.e. the student needed to be reminded more than four times during the class to pay attention to assignment details, stay engaged and working throughout the school day, help to facilitate lesson transitions...).

## **ADMISSION OF TRANSFER STUDENTS**

The school district will enroll and place students who have left Commonwealth charter schools by adhering to the same policies and procedures in place for any other student enrolling in the school district including, but not limited to, examination of the course of study and level of academic attainment of the student when determining the student's appropriate grade placement or eligibility for high school graduation.

To the same extent provided for other students enrolling in the school district, students who enroll in the school district from a Commonwealth charter school shall be subject to the graduation requirements of the school district, may have certain graduation requirements waived, and may make-up certain graduation requirements.

LEGAL REFS.: Chapter 12, Section 11 of the Acts of 2010

## **HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES**

To the extent practical and as required by law, the district will work with homeless students and their families to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Head Start and comparable pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs and school nutrition programs.

Homeless students are defined as lacking a fixed, regular and adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing or economic hardship;
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals;
5. Awaiting foster care placement;
6. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations for human beings;
7. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings;
8. Migratory children living in conditions described in the previous examples.

The Superintendent-Director shall designate an appropriate staff person to be the district's liaison for homeless students and their families.

To the extent feasible, homeless students will continue to be enrolled in their school of origin while they remain homeless or until the end of the academic year in which they obtain permanent housing. Instead of remaining in the school of origin, parents or guardians of homeless students may request enrollment in the school in the attendance area in which the student is actually living, or other schools. Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to homeless families on the same terms as families resident in the district.

If there is an enrollment dispute, the student shall be immediately enrolled in the school in which enrollment is sought, pending resolution of the dispute. The parent or guardian shall be informed of the district's decision and their appeal rights in writing. The district's liaison will carry out dispute resolution as provided by state rule. Unaccompanied youth will also be enrolled pending resolution of the dispute.

Once the enrollment decision is made, the school shall immediately enroll the student, pursuant to district policies. If the student does not have immediate access to immunization records, the student shall be admitted under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Records from the student's previous school shall be requested from the previous school pursuant to district policies. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary.

Homeless students are entitled to transportation to their school of origin or the school where they are to be enrolled. If the school of origin is in a different district, or a homeless student is living in another district but will attend his or her school of origin in this district, the districts will coordinate the transportation services necessary for the student, or will divide the costs equally.

The district's liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students in schools, family shelters and soup kitchens. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students.

LEGAL REFS.:        Title I, Part C  
                             No Child Left Behind Act, 2002

## ADMISSION OF NON-RESIDENT STUDENTS OF KEEFE TECHNICAL SCHOOL STAFF

The school district will enroll and place non-resident students who are children of full-time Keefe Technical School staff, regardless of position held, by adhering to Policy JECA and this Policy.

1. Children of full-time staff members may apply for admission to Keefe Technical School if the Principal, in consultation with the Superintendent, determines there is available space after completing the in-district applicant process. For the purposes of this policy, “full-time staff members” shall be those hired to work on an academic or calendar-year basis.
2. In addition to completing the application requirements for in-district applicants, the student must complete a non-resident application.
3. For funding calculation purposes, the School District shall report to the Commonwealth (or any other funding source) any student enrolled under this policy in the same manner as it would report any in-district student to the extent permitted by law.
4. For students residing in a district that does not offer a particular Chapter 74-approved Career and Technical Education (CTE) program who are admitted and enrolled under this policy, the School District will invoice the student’s district of residence. Similarly, for students residing in a district that does not have its own Chapter 74-approved CTE school or is not a member of a Chapter 74-approved CTE regional district who are admitted and enrolled under this policy, the School District will invoice the student’s district of residence. The School District may also invoice a student’s district of residence in accordance with an agreement between the School District and the district of residence as the Superintendent may negotiate for students admitted and enrolled under this policy.
5. Based on the circumstances of admission and enrollment set forth in this policy, it is anticipated that the admission and enrollment of students under this policy will be rare and will not present a significant additional cost to the School District. Accordingly, although the School District will seek available funding in accordance with paragraph 4 above, it will generally not bill the student’s district of residence for the student’s enrollment at Keefe Technical School where no tuition agreement exists. The School Committee, upon the recommendation of the Superintendent, may make exceptions to this provision should it determine the enrollment of one or more students under this policy would, in its judgment, result in an identifiable and not insignificant cost to the School District.

To the same extent provided for other students enrolling in the school district, students who are children of full-time Keefe Technical School staff shall be subject to the graduation requirements of the school district, may have certain graduation requirements waived, and may make-up certain graduation requirements.

## **SCHOOL CHOICE**

It is the policy of this school district **not** to admit non-resident students under the terms and conditions of the Interdistrict School Choice Law (M.G.L. 76:12B.) This decision must be reaffirmed annually prior to June 1st by a vote of the District School Committee following a public hearing. In the event the District School Committee votes to participate, the following local conditions would apply:

1. That by May 1 of every school year, the administration will determine the number of spaces in each school available to choice students.
2. That by June 1 of every school year, a public hearing will be held to review participation in the school choice program.
3. That resident students be given priority placement in any classes or programs within the district.
4. That the selection of non-resident students for admission when the number of requests exceeds the number of available spaces be in the form of a random drawing. There will be two drawings for this purpose. The first will take place during the last week of the current school year but no later than July 1st. The second will be conducted during the week immediately preceding the opening of the next school year and will be based on the possibility of unexpected additional openings.
5. Any student who is accepted for admission under the provisions of this policy is entitled to remain in the district until graduation from high school except if there is a lack of funding of the program.
6. The District School Committee affirms its position that it shall not discriminate in the admission of any child on the basis of race, color, religious creed, national origin, sex, gender identity, age, sexual orientation, ancestry, athletic performance, physical handicap, special need, academic performance, pregnancy or pregnancy related conditions, or proficiency in the English language.

## **STUDENT ABSENCES AND EXCUSES**

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the Principal or designee.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his character. Parents can help their children by not allowing them to miss school needlessly. Accordingly, parents will provide a written explanation for the absence or tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

### **Student Absence Notification Program**

The Principal, by whatever title he may be known, will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

The Principal, by whatever title he may be known, or designee shall make a reasonable effort to meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

### **Dropout Prevention**

No student who has not graduated from high school shall be considered permanently removed from school unless the Principal has sent notice to a student, and that student's parent/guardian, who has been absent from school for ten (10) consecutive days of unexcused absence. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent-Director or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if

applicable. The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within the ten (10) day timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days.

The Superintendent-Director or designee may proceed with any interview without a parent/guardian present, provided the Superintendent-Director has documented a good faith effort to include the parent/guardian.

The Superintendent-Director or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

## **EXCLUSIONS AND EXEMPTIONS FROM SCHOOL ATTENDANCE**

The District School Committee shall take such action as is reasonable and appropriate to enforce the School attendance requirements subject to the exclusions and exemptions set forth in the General Laws.

LEGAL REFS.: M.G.L.76:1

## **STUDENT RIGHTS AND RESPONSIBILITIES**

The District School Committee has the responsibility to afford students the rights that are theirs by virtue of guarantees offered under the federal and state constitutions and statutes. In connection with rights, there are responsibilities that must be assumed by students.

Among these rights and responsibilities are the following:

1. Civil rights--including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension, expulsion, and decisions the student believes injure his rights.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right to privacy, which includes privacy with respect to the student's school records.

It is the District School Committee's belief that as part of the educational process students should be made aware of their legal rights, and of the legal authority of the District School Committee to make and delegate authority to its staff to make, rules regarding the orderly operation of the schools.

Students have the right to know the standards of behavior that are expected of them, and the consequences of misbehavior.

The rights and responsibilities of students, including standards of conduct, will be made available to students and their parents through handbooks distributed annually.

## **STUDENT INVOLVEMENT IN DECISIONMAKING**

Class, school or student government organizations, such as student councils, class officers, and other organizations appropriate to the age of the students, may be formed to offer practice in self-government and to serve as channels for the expression of student ideas and opinions.

The District School Committee will take into consideration student opinions in establishing policies that directly affect student programs, activities, privileges and other areas of School life especially sensitive to students, such as senior privileges.

Students will be welcomed at District School Committee meetings and granted privileges of speaking commensurate with the privileges extended to the general public.

## **STUDENT INVOLVEMENT IN DECISION-MAKING**

As appropriate to the age of students, class or school organizations and school government organizations, such as student councils, may be formed to offer practice in self-government and to serve as channels for the expression of students' ideas and opinions.

The Committee will take into consideration student opinions in establishing policies that directly affect student programs, activities, privileges and other areas of student sensitivity.

Students will be welcomed at Committee meetings and granted privileges of speaking in line with the privileges extended to the general public.

### Student Council acting as the Student Advisory Committee

As required by state law, the Committee will meet at least once every other month while school is in session with its student advisory committee, which is composed of five students elected by the high school student body. The chair of the student advisory committee shall be an ex-officio nonvoting member of the District School Committee without the right to attend executive sessions unless such right is expressly granted by the District School Committee.

## **STUDENT DISCIPLINE**

The District School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

The Principal shall include prohibited actions in the student handbook or other publication to be made available to students and parents.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

The Superintendent-Director shall provide each Principal with a copy of the regulations promulgated by DESE and shall have each Principal sign a document acknowledging receipt thereof, which shall be placed in their personnel file.

### **Suspension**

In every case of student misconduct for which suspension may be imposed<sup>1</sup>, a Principal shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

#### **Notice of Suspension:**

Except for emergency removal or an in-school suspension of less than 10 days, a Principal must provide the student and the parent oral and written notice, and provide the student an opportunity for a hearing and the parent an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal shall provide both oral and written notice to student and parent in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent present, the Principal must be able to document reasonable efforts to include the parent.

#### **Emergency Removal**

A Principal may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's judgment, there is no alternative available to alleviate the danger or disruption.

---

<sup>1</sup> Except for offenses referenced in the note at the end of this policy.

The Principal shall immediately notify the Superintendent-Director in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal shall: Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice as referenced in the applicable regulation; Provide written notice to the student and parent as required above; Provide the student an opportunity for a hearing with the Principal that complies with applicable regulations, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal, student, and parent; Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

#### **In School Suspension – not more than 10 days consecutively or cumulatively**

The Principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

The Principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the Principal follows the process set forth in regulation and the student has the opportunity to make academic progress as required by law and regulation.

#### **Principal's Hearing – Short Term Suspension of up to 10 days**

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

**Principal's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)**

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the Principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

The Principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the Principal and the parent.

If the Principal decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's decision to the Superintendent-Director or designee, but only if the Principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information: The process for appealing the decision, including that the student or parent must file a written notice of appeal with the Superintendent-Director within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the Superintendent-Director an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent-Director decides to reverse the Principal's determination on appeal.

### **Superintendent-Director's Hearing**

A student who is placed on long-term suspension following a hearing with the Principal shall have the right to appeal the Principal's decision to the Superintendent-Director.

The student or parent shall file a notice of appeal with the Superintendent-Director within the time period noted above (see Principal's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent-Director may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent-Director shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the Superintendent-Director shall grant the extension.

The Superintendent-Director shall make a good faith effort to include the parent in the hearing. The Superintendent-Director shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and Superintendent-Director to participate. The Superintendent-Director shall send written notice to the parent of the date, time, and location of the hearing.

The Superintendent-Director shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent-Director shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The Superintendent-Director shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request. The student shall have all the rights afforded the student at the Principal's hearing for long-term suspension.

The Superintendent-Director shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent-Director determines that the student committed the disciplinary offense, the Superintendent-Director may impose the same or a lesser consequence than the Principal, but shall not impose a suspension greater than that imposed by the Principal's decision. The decision of the Superintendent-Director shall be the final decision of the school district with regard to the suspension.

### **Expulsion**

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

### **Academic Progress**

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal shall inform the student and parent of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal shall notify the parent and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

### **Reporting**

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

## **STUDENT DRESS CODE**

The responsibility for the dress and appearance of the students will rest with individual students and parents.

They have the right to determine how the student will dress providing that attire is not destructive to school property, complies with requirements for health and safety, and does not cause disorder or disruption. The administration is authorized to take action in instances where individual dress does not meet the stated requirements.

This does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that students will not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the requirements set forth above.

## **CARE OF SCHOOL PROPERTY BY STUDENTS**

### Payment for Damage done by Students to School Property

Any student who has been found to have intentionally or through negligence caused physical damage to any School property will be responsible to reimburse the School District for the full cost to repair said damage.

Any senior who fails to make such payment will not be allowed to participate graduation ceremonies.

LEGAL REFS.: M. G.L. 266:98

## **STUDENT CONDUCT ON SCHOOL BUSES**

The District School Committee and its staff share with students and parents the responsibility for student safety during transportation to and from school. The authority for enforcing District School Committee requirements of student conduct on buses will rest with the Principal.

To ensure the safety of all students who ride in buses, it may occasionally be necessary to revoke the privilege of transportation from a student who abuses this privilege. Parents of children whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders will be notified that their children face the loss of transportation privileges in accordance with regulations approved by the District School Committee.

## **STUDENT PUBLICATIONS**

Within the school setting, students enjoy the constitutional right of freedom of expression, including the right to express their views in student publications, provided such expression does not cause, or threaten to cause by reasonable forecast by school officials, any disruption or disorder in the school. Additionally, such constitutional right of freedom of expression does not include expression which is obscene, defamatory, or advocates violence or illegality where such advocacy is imminently likely to incite the commission of such acts to the detriment of school security, or which can reasonably be forecast to cause substantial disruption or material interference with school activities.

The District School Committee will at least annually review their support of student publications, and encourage student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing, and understanding responsible journalism, but also because they provide an opportunity for students to express their views subject to the limitations as contained in this policy.

Student publications will be encouraged to comply with the rules for responsible journalism. Students shall affix their names to all articles or editorials written by or contributed to by them. The Superintendent-Director will establish guidelines that are in keeping with this policy and provide for review of student publications prior to their distribution, to address matters that are not protected forms of expression.

Each student publication shall contain the following: "Pursuant to state law, no expression made by students in the exercise of such rights shall be deemed to be an expression of school policy and no school officials shall be held responsible in any civil or criminal action for any expression made or published by the students."

### Distribution of Literature

The time, place and manner of distribution of literature will be reasonably regulated by the Principal.

## **GANG ACTIVITY/SECRET SOCIETIES**

The goal of the District School Committee is to keep District schools and students free from the threats or harmful influence of any gang. For purposes of this policy, gang is defined as any group, secret society, organization or association that advocates drug use, violence, ethnic intimidation, or disruptive or illegal behavior. The Principal or his/her designee shall maintain supervision of school premises to deter intimidation of students and confrontations between members of different gangs.

The Superintendent-Director shall establish open lines of communication with local law enforcement agencies so as to share information and provide mutual support in this effort within appropriate legal guidelines.

The Superintendent-Director shall provide in-service training to help staff members identify gangs and gang symbols, recognize early manifestations of disruptive activities, and respond appropriately. Staff members shall be informed about conflict management techniques and alerted to intervention measures and community resources that may help students.

### Symbols

The District School Committee finds that gang symbols are inherently disruptive to the educational process, and therefore prohibits the presence of any insignia, apparel, jewelry, accessory, notebook or other school supply, or manner of grooming which by virtue of its color, arrangement, trademark, or any other attribute denotes membership in gangs. The District School Committee further prohibits any demonstration of gang membership through the use of hand gestures, graffiti, or printed materials. This policy shall be applied by the Principal or his/her designee as the need for it arises. A student may be suspended or expelled for failure to comply with the provisions of this policy.

### Prevention Education

The District School Committee realizes that students may become involved in gangs without understanding the consequences of such membership. Early intervention is a key component of efforts to break the cycle of such memberships. Therefore, gang violence prevention information shall be made available in the elementary, middle, and high schools as appropriate.

## **SECRET SOCIETIES**

Fraternities, sororities and/or secret societies shall not receive District or building recognition in any manner.

A student may be suspended or expelled for failure to comply with the provisions of this policy.

## **PROHIBITION OF HAZING**

In accordance with Massachusetts General Laws, Chapter 536 of the Acts of 1985, the District School Committee hereby deems that no student, employee or school organization under the control of the District School Committee shall engage in the activity of hazing a student while on or off school property, or at a school sponsored event regardless of the location. No organization that uses the facilities or grounds under the control of the District School Committee shall engage in the activity of hazing any person while on school property.

Any student who observes what appears to them to be the activity of hazing another student or person should report such information to the Principal including the time, date, location, names of identifiable participants and the types of behavior exhibited. Students and employees of the District are obligated by law to report incidents of hazing to the police department.

Any student who is present at a hazing has the obligation to report such an incident. Failure to do so may result in disciplinary action by the school against that student and could involve suspension from school for up to three days.

Any student who participates in the hazing of another student or other person may, upon the approval of the Superintendent-Director of Schools, be suspended from school for up to ten (10) school days.

Any student determined by the Principal to be the organizer of a hazing activity may be recommended for expulsion from school but will receive no less disciplinary action than that of a participant.

In all cases relating to hazing, students will receive procedural due process.

## **BULLYING PREVENTION**

The South Middlesex Regional Vocational Technical School District is committed to providing a safe, positive and productive educational environment where students can achieve the highest academic standards. No student shall be subjected to harassment, intimidation, bullying, or cyber-bullying.

“Bullying” is the repeated use by one or more students or school staff members of a written, verbal, or electronic expression, or a physical act or gesture, or any combination thereof, directed at a target that:

- causes physical or emotional harm to the target or damage to the target’s property;
- places the target in reasonable fear of harm to him/herself, or of damage to his/her property;
- creates a hostile environment at school for the target;
- infringes on the rights of the target at school; or
- materially and substantially disrupts the education process or the orderly operation of a school.

“Cyber-bullying” means bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a:

- wire
- radio
- electromagnetic
- photo-electronic or photo-optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications.

Cyber-bullying shall also include the creation of a web page or blog in which the creator assumes the identity of another person or knowingly impersonates another person as author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying.

Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

Bullying and cyber-bullying may occur in and out of school, during and after school hours, at home and in locations outside of the home. When bullying and cyber-bullying are alleged, the full cooperation and assistance of parents and families are expected.

For the purpose of this policy, whenever the term bullying is used it is to denote either bullying, or cyber-bullying.

Bullying is prohibited:

- On school grounds;
- On property immediately adjacent to school grounds;
- At school-sponsored or school-related activities;
- At functions or programs whether on or off school grounds

- create a hostile environment at school for the target;
- infringe on the rights of the target at school; and/or
- materially and substantially disrupt the education process or the orderly operation of a school.

#### Prevention and Intervention Plan

The Superintendent-Director and/or his/her designee shall oversee the development of a prevention and intervention plan, in consultation with all district stakeholders, which may include teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians, consistent with the requirements of this policy, as well as state and federal laws. The bullying prevention and intervention plan shall be reviewed and updated at least biennially.

The Principal is responsible for the implementation and oversight of the bullying prevention and implementation plan within his or her school.

#### Reporting

Students, who believe that they are a target of bullying, observe an act of bullying, or who have reasonable grounds to believe that these behaviors are taking place, are obligated to report incidents to a member of the school staff. The target shall, however, not be subject to discipline for failing to report bullying.

The school shall have a means for anonymous reporting by students of incidents of bullying. No formal disciplinary action shall be taken solely on the basis of an anonymous report.

Any student who knowingly makes a false accusation of bullying shall be subject to disciplinary action.

Parents or guardians, or members of the community, are encouraged to report an incident of bullying as soon as possible.

A member of a school staff shall immediately report any instance of bullying the staff member has witnessed or become aware of to the school principal or their designee.

### Investigation Procedures

The Principal or their designee, upon receipt of a viable report, shall promptly contact the parents or guardians of a student who has been the alleged target or alleged perpetrator of bullying. The actions being taken to prevent further acts of bullying shall be discussed.

The school Principal or a designee shall promptly investigate the report of bullying, using a Bullying/Cyber-bullying Report Form which may include interviewing the alleged target, alleged perpetrator, staff members, students and/or witnesses.

Support staff shall assess an alleged target's needs for protection and create and implement a safety plan that shall restore a sense of safety for that student.

Confidentiality shall be used to protect a person who reports bullying, provides information during an investigation of bullying, or is witness to or has reliable information about an act of bullying.

If the school Principal or a designee determines that bullying has occurred he/she shall take appropriate disciplinary action and if it is believed that criminal charges may be pursued against the perpetrator, the principal shall consult with the school's resource officer and the Superintendent-Director to determine if criminal charges are warranted. If it is determined that criminal charges are warranted, the local law enforcement agency shall be notified.

The investigation shall be completed within fourteen school days from the date of the report. The parents or guardians shall be contacted upon completion of the investigation and informed of the results, including whether the allegations were found to be factual, whether a violation of this policy was found, and whether disciplinary action has or shall be taken. At a minimum the Principal or his/her designee shall contact the parents or guardians as to the status of the investigation on a weekly basis.

Disciplinary actions for students who have committed an act of bullying or retaliation shall be in accordance with district disciplinary policies.

The school shall document any incident of bullying that is reported per this policy and a file shall be maintained by the Principal or designee. A monthly report shall be provided to the Superintendent-Director.

Confidentiality shall be maintained to the extent consistent with the school's obligations under law.

### Retaliation

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying, shall be prohibited.

### Target Assistance

The South Middlesex Regional Vocational Technical School District shall provide counseling or referral to appropriate services, including guidance, academic intervention, and protection to students, both targets and perpetrators, affected by bullying, as necessary.

### Training and Assessment

Annual training shall be provided for school employees and volunteers who have significant contact with students in preventing, identifying, responding to, and reporting incidents of bullying.

Age-appropriate, evidence-based instruction on bullying prevention shall be incorporated into the curriculum for all students.

### Publication and Notice

Annual written notice of the relevant sections of the bullying prevention and intervention plan shall be provided to students and their parents or guardians, in age-appropriate terms.

Annual written notice of the bullying prevention and intervention plan shall be provided to all school staff. The faculty and staff shall be trained annually on the bullying prevention and intervention plan applicable to the school.

Relevant sections of the bullying prevention and intervention plan relating to the duties of faculty and staff shall be included in the school employee handbook.

The bullying prevention and intervention plan shall be posted on the South Middlesex Regional Vocational Technical School District website.

## **ALCOHOL, TOBACCO, AND DRUG USE BY STUDENTS PROHIBITED**

A student shall not, regardless of the quantity, use or consume, possess, buy or sell, or give away any beverage containing alcohol; any tobacco product, including vapor/E-cigarettes; marijuana; steroids; or any controlled substance. The District School Committee prohibits the use or consumption by students of alcohol, tobacco products, or drugs on school property or at any school function.

Additionally, any student who is under the influence of drugs or alcoholic beverages prior to, or during, attendance at or participation in a school-sponsored activity, will be barred from that activity and may be subject to disciplinary action.

The school district shall utilize, in accordance with law, a verbal screening tool to screen students for substance abuse disorders approved the Department of Elementary and Secondary Education. The tool shall be administered by trained staff on an annual basis at two different grade levels. Parents/guardians shall be notified prior to the opening of school each year. Parents/guardians shall have the right to opt out of the screening by written notice prior to or during the screening. All statements made by a student during a screening are confidential and shall not be disclosed except in the event of immediate medical emergency or in accordance with law. De-identified results shall be reported to the Department of Public Health within 90 days of the completion of the screening process.

This policy shall be posted on the district's website and notice shall be provided to all students and parents of this policy in accordance with state law. Additionally, the district shall file a copy of this policy with DESE in accordance with law in a manner requested by DESE.

## **PREGNANT STUDENTS**

The School District wishes to preserve educational opportunities for those students who may become pregnant and/or take on parenting responsibilities.

Pregnant students are permitted to remain in regular classes and participate in extracurricular activities with non-pregnant students throughout their pregnancy, and after giving birth are permitted to return to the same academic and extracurricular program as before the leave.

The South Middlesex Regional Vocational Technical School District does not require a pregnant student to obtain the certification of a physician that the student is physically and emotionally able to continue in school.

Every effort will be made to see that the educational program of the student is disrupted as little as possible; that health counseling services, as well as instruction, are offered; that return to school after leave is encouraged; and that every opportunity to complete high school is provided.

## **INTERROGATIONS AND SEARCHES**

### Interrogations and Arrest on School Grounds

1. In the event a police officer seeks to interrogate a person on School grounds, search a locker or a person, or arrest a person in relation to any event which occurred off the School grounds during non-school hours:
  - a. The police officer will be required to identify him/herself. In addition, the police officer will be requested to explain why it is necessary to conduct the investigation during School hours.
  - b. Unless such notice would interfere with a police investigation, the student's parents should be notified prior to an interrogation of the student.
  - c. The Superintendent-Director-Director or his/her designee must be present during any interrogation or search of a locker or desk by a police officer.
  - d. The School will comply with a duly authorized warrant for arrest. In the event of the arrest of a student, the student's parents must be informed as soon as practicable that the police are taking custody of the student.
2. The police should be requested to investigate any possible crimes which have occurred in School or on School grounds. Since the School is an educational institution and not an investigative agency, the following procedures should be followed in the event of any criminal activity in the School:
  - a. A request should be made to the police department to conduct an investigation.
  - b. Prior to the interrogation or arrest of any student, the parents of the suspected student must be notified.
  - c. The Superintendent-Director-Director or his/her designee must be present during any interrogation or search of a locker or desk by a police officer.
  - d. Should a student be arrested, the parents of the student must be informed as soon as practicable that the police are taking the student into custody.
3. The Superintendent-Director-Director or his/her designee must be immediately informed of any police investigation occurring in the School.

Students and their personal belongings, including student vehicles, are subject to search by School personnel to the extent there exists a reasonable basis for suspecting that the search would reveal evidence that the student has violated the law or School rules. In the event of the search of a student or his/her belongings, the parents of the student will be notified as soon as practicable following the search.

Except as otherwise necessary due to exigent circumstances, all searches of students will be conducted by a school administrative staff member in the presence of another adult. In all cases the nature of the search must be reasonably related to the object sought and must not be excessively intrusive in light of the age and gender of the student.

In the event a student is found to be in possession of an object or substance that may give rise to a crime, such object or substance will be given to the police. Other objects or substances which are prohibited by School rules or which are otherwise disruptive to the School environment may be held by School officials for later return to the student's parents.

School lockers and desks, which are assigned to students for their use are provided as a privilege for convenience only, and remain the property of the School department and the student should, therefore, have no expectation of privacy in these areas including areas within a locker or a desk. Such areas are subject to canine searches and to random searches by School officials at any time. Such search may be undertaken either within or outside the presence of the student and shall be under the direction of the Superintendent-Director-Director of his/her designee.

LEGAL REFS.:        United States and Massachusetts Constitutions

NOTE: For additional information, refer to the Student Handbook.

## **LOCKERS**

The locker and its space are the property of the school. Student lockers are subject to inspection, and the administration retains a duplicate of the combination, or a master key, which permits them to open every locker. The locker may be opened at any time, with or without your presence, under the direction of the school Principal. Do not place valuable items in your locker. They are not secure and the school takes no responsibility for anything lost from your locker. Padlocks are your responsibility. There is a \$5.00 replacement fee for lost or stolen locks. Students may only use school-issued locks with the exception of physical education and athletics.

**Searches of Lockers, Students and School Property** – The Principal or his designee retains the right to search lockers, desks, student vehicles, or other storage if there is reason or cause to believe that the student has in his/her possession any item, the possession of which would constitute a violation of school rules or a criminal offense under the laws of the Commonwealth of Massachusetts.

## **STUDENT COMPLAINTS AND GRIEVANCES**

The District School Committee recognizes that there may be conditions in the school system that are in need of improvement and that students should have some means by which their concerns may be effectively expressed, considered, and dealt with fairly. Such means, if well conceived and understood in advance, can do much to maintain harmonious relationships among the schools and the students and community.

The traditional "open door" policy in the public school system will be continued. Students--and their parents and/or guardians--who believe that a student has received unfair treatment may bring forward their grievance. Appeals of individual disciplinary cases will be required to follow the district's policy on student discipline. Any applicable provisions of the Massachusetts General Laws or federal law will be followed by school officials in conducting hearings and reviews of student grievances. In general, procedures will begin with the authority imposing the penalty (for example, Principal or teacher) and may ultimately be referred to the Superintendent-Director and on to the District School Committee if applicable.

Every attempt will be made to seek a satisfactory solution to any legitimate grievance in a friendly and informal manner.
